

## Risk Assessment for Childrens' Services (Schools).

<b>Assessment Title:</b>	<b>Managing Covid 19 in Schools from 8th March 2021</b>	<b>Ref No :</b>	<b>V5.01</b>
<b>School Name:</b>	Brodetsky primary	<b>School Address:</b>	Wentworth avenue, Leeds, LS17 7TN
<b>Date Assessment Undertaken:</b>	<b>Name of Assessor (print):</b>	<b>Assessor Signature:</b>	<b>Assessment Review Date:</b>
03/03/2021	SHARON BHOGAL	S Bhogal	Ongoing
<b>Name of Head Teacher / Centre Manager (print):</b>	<b>Head Teacher / Centre Manager Signature:</b>	<b>Name of Chair of Governors (print):</b>	<b>Chair of Governors Signature:</b>
SUSY HARDACRE	S Hardacre	DR. JASON BROCH	Dr J Broch

**Main Legislation and/or Information Source:**

Health & Safety at Work Act 1974.  
- Management of H & S at Work Regulations 1999.

*Copyright © of Leeds City Council 2021. The reproduction or transmission of all or part of this document for commercial purposes or gain, whether by electronic means or otherwise, without the written permission of the owner, is prohibited.*

**Guidance:**

**This is a sample risk assessment and will remain so unless the following criteria are satisfied:**

1. The boxes highlighted in grey above must be completed with the required details.
2. The control measures in the risk assessment section must be either complied with **or** altered to reflect the establishment's control measures.
3. Once criteria 1 - 2 have been satisfied, you should remove 'SAMPLE' from the Title.

**The purpose of this whole assessment is to assist in the management of Covid 19 on schools premises and as such the over-arching hazards being controlled are building safety, reducing the spread and likelihood of contracting Covid 19, cross contamination risks and managing staff and pupil wellbeing. In all cases the persons who could be harmed will be pupils, staff, visitors and parents/ carers. Therefore, the format of the risk assessment has been altered to reflect this and present the control measures that may assist in planning for the safe operation of the school in whichever form that takes.**

## Managing Covid 19 in Schools from 8th March 2021 Risk Assessment Content List

Copyright © of Leeds City Council 2021. The reproduction or transmission of all or part of this document for commercial purposes or gain, whether by electronic means or otherwise, without the

### Section 1 - pre-opening checks and assessments

1. Building Management / readiness
2. Assessing staff and pupil numbers to assist in plans for opening
3. Updating pupil and staff details
4. Assess activities / lessons which can take place
5. Information to pupils, staff, parents / carers, visitors and contractors.

### Section 2 - Ongoing Procedures - subject to regular review and change

6. Clinically extremely vulnerable and vulnerable staff and pupils
7. Persons who are already displaying Coronavirus symptoms
8. Persons developing Coronavirus symptoms who have been on site previously or persons who develop symptoms whilst on site
9. Controlling access into the school for staff, pupils and members of the public.
10. Handwashing and hand sanitisers (N.B Regular and thorough hand cleaning is going to be needed for the foreseeable future.)
11. Cleaning
12. Bubbles / Social Distancing
13. First Aid
14. Biometrics, Lifts, electronic signing in / out systems and control panels / buttons. Shared IT.
15. General controls
16. Educational Visits
17. PPE for staff and pupils
18. Staff Wellbeing
19. Contractors visiting site
20. Lettings / Meetings / Visitors
21. Pupil Wellbeing
22. Fire safety
23. Supervision at Lunchtimes
24. Catering
25. Staff Training
26. Drop off of Essential Items Forgotten by Pupils
27. Transport to School by My Bus or School Buses (not public transport buses)
28. School Sites Shared with other Users e.g PFI Staff, Children's Centres
29. Marking / Handling School Work
30. Agency staff and volunteers
31. Before and after school clubs
32. Music and Performing Arts
33. PE / Sports including dance.
34. Science and D&T
35. Shared Resources
36. Record Keeping
37. Use of school minibuses / transport e.g for visits, transfer between settings, emergencies
38. Exams
39. Asymptomatic Testing.

### Section 3 - On Site and Home Mass Asymptomatic Testing - Secondary and SILCs

#### On site Testing

#### Home Testing

### Section 4 - Home Mass Asymptomatic Testing for Primary and Nursery Settings

Section 1 - Pre - opening checks and assessments

Area of control	Control Measures	Additional / altered measures / notes	Implemented by : Initial	Date Completed	
	<b>1.1 Regular ongoing checks required.</b>	Amended			
	1.1.1 Damage to asbestos containing materials e.g. these may have been damaged by rodent activity during the closure	NA	M Hare	01/09/2020	
	1.1.2 Damage to the building and fixtures and fittings	NA	M Hare	01/09/2020	
	1.1.3 Damage to grounds, playgrounds, outdoor play equipment, fencing, trees etc....	NA	M Hare	01/09/2020	
	1.1.4 Rodent activity and/or infestations - commissioning of pest control may be required	NA	M Hare	01/09/2020	
	<b>1.2 Operational checks (to ensure good working order) to be carried out on :</b>	Up to Date		01/09/2020	
	1.2.1 Fire alarms/smoke alarms/refuge alert systems/ panic and accessible-toilet alarms.	Up to Date	M Hare	01/09/2020	
	1.2.2 Fire-door mechanisms, smoke exhaust systems and smoke curtains to ensure they function.	Up to Date	M Hare	01/09/2020	
	1.2.3 Emergency lighting	Up to Date	M Hare	01/09/2020	
	1.2.4 Gas supplies including science laboratories and kitchens	Up to Date	M Hare	01/09/2020	
	1.2.5 Kitchen equipment	Up to Date	M Hare	01/09/2020	
	1.2.6 Ventilation systems including LEV in kitchens, science labs and store rooms and classrooms	Up to Date	M Hare	01/09/2020	
	1.2.7 Water systems including flushing through and disinfection in accordance with your legionella risk assessment and policy. Where buildings have been limiting attendance to just vulnerable children and children of critical workers or have reduced occupancy, water system stagnation can occur due to lack of use, increasing the risks of Legionnaires' disease. Advice on this can be found in the guidance on legionella risks during the coronavirus outbreak. <a href="https://www.hse.gov.uk/coronavirus/legionella-risks-during-coronavirus-outbreak.htm">https://www.hse.gov.uk/coronavirus/legionella-risks-during-coronavirus-outbreak.htm</a>	All Fountains have been checked by WCS Legionella Checks Company and weekly checks carried out on site weekly.	M Hare	15/02/2021	
	1.2.8 Water systems to look for leaks and ensure there is provision of hot water	Up to Date	M Hare	02/09/2020	
	1.2.9 Windows, doors and gates including electronic gates and doors	Up to Date	M Hare	03/09/2020	
	1.2.10 Any D&T equipment is checked, and ensuring any PPE is available as required by risk assessments.	Up to Date	M Hare	04/09/2020	
	1.2.11 Equipment used on site e.g. floor cleaners, photocopiers, whiteboards (servicing should be in line with the manufacturer's/provider's requirements).	Up to Date	M Hare	05/09/2020	
	<b>1.3 Ensure Statutory Inspections are up to date for :</b>	Up to Date		06/09/2020	
	1.3.1 Lifts and Lifting Equipment (if the scheduled inspections have not taken place in the last six months);	Up to Date	P Staniland	07/09/2020	
	1.3.2 Pressure systems (if the scheduled inspections have not taken place in the last 12 months);	Up to Date	M Hare	08/09/2020	
	1.3.3 LEV (if the scheduled inspections have not taken place in the last 14 months);	Up to Date	M Hare	09/09/2020	
	1.3.4 Gas Appliances (if the scheduled inspections have not taken place in the last 12 months);	Up to date	M Hare	10/09/2020	
	1.3.5 Fixed wiring (if the scheduled tests required by the regulations have not taken place in the last 5 years);	Up to date	M Hare	11/09/2020	
	1.3.6 PAT (if the scheduled tests required by the regulations have not taken place in line with your individual deadlines)	Up to date. All appliances been tested and stickers applied. No appliances to be brought from home. All new appliances to be tested.	M Hare	12/09/2020	
	1.3.7 Asbestos Management Plan (if the plan has not be re-assessed in the last 12 months);	No major works undertaken	M Hare	13/09/2020	
	1.3.8 Sports Equipment (if the scheduled inspections have not taken place in the last 12 months);	Up to date	M Hare	14/09/2020	
	1.3.9 Fixed Outdoor Play Equipment (if the scheduled inspections have not taken place in the last 12 months);	Sportsafe booked Apr21	M Hare	15/09/2020	
	1.3.10 Tree surveys (if the scheduled inspections have not taken place in the last 12 months);	NA	M Hare	16/09/2020	
	1.3.11 Fire Safety : contractor testing of the fire alarm (if this has not taken place in the last 6 months), fire extinguisher maintenance (if this has not taken place in the last 12 months), emergency lighting (if this has not taken place in the last 12 months), sprinkler systems (school weekly test & contractor 12 monthly tests), smoke exhaust and smoke curtains (contractor testing if it has not taken place in the last 12 months or in line with manufacturer's guidance on testing).	The fire alarm tested Nov20 (Logic Fire and Security) Fire Extinguishers tested annually - Nov20 (Churchfires). Emergency lighting next test due Apr21. No sprinkler system - no smoke exhaust and smoke curtains.	M Hare	17/09/2020	
	<b>1.4 Cleaning of the premises</b>				
	1.4.1 If the school has been partially open i.e not using all the rooms / spaces that will need to be used on the 8th March, it is recommended a thorough clean of these areas is undertaken in line with existing cleaning procedures before they are occupied.	School to be cleaned before full opening	P Staniland	01/03/2021	
	1.4.2 If the school has been using all the premises, a full deep clean of the premises should not be necessary prior to the 8th March unless it has been required by Public Health Authorities as regular thorough cleaning should have been taking place.	Up to date	M Hare	01/03/2021	
	<b>1.5 Supplies</b>				
	1.5.1 Ensuring you have adequate supplies of hand sanitiser, soap and hand towels / drying facilities in kitchens, toilets and at sinks to allow for the numbers of students and staff on site and the increased amounts of cleaning required.	Sufficient Supplies have been ordered and are on site ready for use.	P Staniland	01/03/2021	
	1.5.2 Ensuring you have adequate supplies of cleaning materials and any identified PPE to allow for increased cleaning and staff needs.	Sufficient Supplies have been ordered and are on site ready for use.	P Staniland	01/03/2021	
	1.5.3 Identify if you have enough hand washing or hand sanitiser 'stations' available so that all pupils and staff can clean their hands regularly and action where necessary.	Available in every classroom and communal area. Staff to contact member of HT to request more during the day if required.	S Bhogal L Seaton	Daily from 1/3/2021	
	<b>2.1</b>	All Children to return on 8th March 2021.	S Hardacre	01/03/2021	
	<b>2.2</b>	Contact parents / carers of pupils, and staff, to ascertain if there are any changes to / new medical or SEND needs so that staff rotas, ratios, medical, SEN and first aid needs etc. can be assessed. This will include re-assessing any staff or pupil needs / issues already identified on an individual staff or pupil risk assessment that may affect their ability to return or require further adjustments to be made.	Staff contacted by e-mail, requesting up-to-date information and any changes to medical needs or further requirement for WASPS. Parents to be contacted to inform us of any changes.	S Bhogal	04/03/2021
	<b>2.3</b>	Where pupil routinely attends more than one setting on a part time basis, for example because they are dual registered at a mainstream school and a special setting, the settings should work through the system of controls collaboratively, enabling them to address any risks identified and allowing them to jointly deliver the curriculum for the pupil. Pupils should be able to continue attending both settings. While some adjustment to arrangements may be required, pupils in this situation should not be isolated as a solution to the risk of greater contact <b>except when required by specific</b>	NA and Nursery only one exclusive setting at this moment in time.	L Seaton	01/03/2021

1. Building Management

2. Assessing staff and pupil numbers to assist in plans for partial opening

	2.4	Secondary pupils not undergoing testing should attend school in line with their school's phased return arrangements. Vulnerable children and children of critical workers in secondary schools should continue to attend school throughout, unless they receive a positive test result.	NA		
	2.5	Identify which / how many staff will be able to return on the 8th March taking into account current illness and the recent extension of the numbers of people classed as CEV and advised to shield. This will help determine what staff are available and how pupils and staff can be grouped. Where possible, it remains the case that wider government policy advises those who can reasonably work from home do so, however, school leaders are best placed to determine the workforce that is required in school. Some roles, such as some administrative roles, may be conducive to home working, and schools should consider what is feasible and appropriate. The expectation is that those staff not attending school who are still able to work should do so from home	In place. No further staff have informed us of unavailability to work on site.	S Hardacre	01/03/2021
	2.6	Consider that staff may still be supporting remote learning of pupils and that additional PPA time may be needed on staffing rotas to support this or support amended learning	To be provided where required.	S Bhogal	01/03/2021
	2.7	<b>Ongoing</b> Review ratios, rotas, medical and first aid needs on an ongoing basis.	Headship Team to ensure First Aid supplies are sufficiently stocked up. Monitor ratios and organise rotas	S Yechezkel	ongoing
3.Updating pupil and staff details	3.1	Obtain up to date medical, allergy and emergency contact details from pupils and staff prior to coming back on site wherever possible.	Requests updated details from parents via Parentmail. Staff e-mail request to go out.	S Bhogal	04/03/2021
	3.2	Re-assess if IPRAs or PBSPs are needed or need to be altered given the full return to school and any altered nature of the school use, day, timetable, staffing, medical needs, SEN adaptations etc... Control measures and risk ratings in those IPRAs / PBSPs may need to be altered to reflect the current situation.	SENCO/ DHT to call parents of chn who this may be relevant for.	S Bhogal	01/03/2021
	3.3	Staff should be made aware of any / reminded of medical conditions / needs of the pupils they are caring for e.g. allergies, asthma etc. and devices such as epi pins and inhalers should be available wherever the pupil is. Ensure staff are trained in their use. This is especially important at this time as many staff and pupils have been out of the setting for a considerable time.	List to be printed off SIMS for all Year Groups and provided to Class Teachers who will disseminate to all relevant staff.	M Hare	01/03/2021
	3.4	Food allergies / intolerances information should be shared with catering staff for staff and children they may not already be aware of. It is recommended that the information school holds regarding pupils allergies / intolerances is cross checked with catering staff to ensure the correct / up to date information is available for both parties as schools return to full opening.	As above. To be shared with Catering staff too.	M Hare	01/03/2021
4.Assess activities / lessons which can take place	4.1	There is activity / subject specific and shared resources guidance in sections 31 to 35 on the following tab - Section 2	Guidance to be followed	S Bhogal	01/09/2020
	4.2	It is still recommended that children and young people limit the amount of equipment they bring into the setting each day, to essentials such as lunch boxes, hats, coats, books, stationery and mobile phones. Bags are allowed.	Parents have been informed that only named essential items can be brought into school. Class Staff to monitor this.	S Bhogal L Seaton	01/03/2021
	4.3	Amend / stagger timetables for activities using halls or classrooms where activities cannot be done elsewhere e.g. D&T, practical science, art, so that groups of pupils can move around safely.	Timetables have been completed and this has been fully taken into account.	S Yechezkel	01/03/2021
		<b>Ongoing</b>			
	4.4	Review how pupils and staff are interacting, numbers on site, how equipment is being used and cease or re-instate activities / equipment as necessary.	Ongoing monitoring by HT. HT communicate with each other daily to discuss effectiveness.	S Bhogal	01/03/2021
5.Information to pupils, staff, parents / carers, visitors and contractors.	5.1	Clear communication with parents / carers is essential from the school and the LA so they understand what schools can offer safely to their children. This should include informing parents / carers who are critical workers that they should keep their children at home if they can. It may also be of value to inform those parents / carers if your learning provided is the same for both pupils in and out of school to help re-inforce the message to keep their children at home if they can.	Ongoing communication and updates through our Parentmail/facebook. All relevant DFE guidance documents sent to them.	S Yechezkel	01/03/2021
	5.2	All persons likely to come onto the school grounds must be informed they must not attend if they are displaying any symptoms of Coronavirus, or if they are self isolating following Government Guidance for households with family members displaying symptoms.	This has been clear in documents sent from DFE as well as in our Opening Information. Signs to be displayed on each gate.Weekly reminders also to be sent out.	S Hardacre S Bhogal	01/03/2021
	5.3	This may be by newsletters, letters, emails, signs etc....	Ongoing communication provided.	S Yechezkel	01/03/2021
	5.4	Update behaviour and staff policies to reflect the new rules and routines necessary to reduce risk in your setting and agree how to communicate this to staff, pupils and parents. The behaviour policy should include steps to be taken if pupils fail to follow the new rules and routines or deliberately put themselves or others at risk e.g. deliberately coughing or spitting on another person. Both staff and pupil policies may include the steps that could be taken if government guidance on social distancing and self isolating outside of the school is not being followed and this places other persons in the school at increased risk.	Staff to re-establish behaviour expectations and use of School Behaviour Policy.	S Bhogal	01/03/2021

## Managing Covid 19 in Schools from 8th March 2021 opening - Risk Assessment - Version 5.01 - Section 2 Ongoing procedures and practices subject to regular review and change

*Copyright © of Leeds City Council 2021. The reproduction or transmission of all or part of this document for commercial purposes or gain, whether by electronic means or otherwise, without the written permission of the owner, is prohibited.*

Area of control	Control Measures	Additional / altered measures / notes	Implemented by : Initial	Date Completed	
<b>6.Clinically extremely vulnerable and vulnerable staff and pupils</b>	<b>6.1</b>	<b>Clinically Extremely Vulnerable persons, Clinically Vulnerable persons, and staff at higher risk (BAME, staff over 60, persons living with CEV / CV people).</b>			
	<b>6.1.1</b>	<p>Staff - CEV staff should continue to shield, should not come into the workplace and should work from home. This includes those recently identified as CEV and advised to shield. If employees who are CEV wish to attend the workplace, regardless of the government advice to shield, because they believe that working from home may have a serious impact on their wellbeing, then they can make a request to their manager. This request would only be approved if it is supported by their GP/specialist and all mitigation measures to reduce the likelihood of contracting Covid are identified through an individual risk assessment e.g. WASP conducted by their manager, and there should also be input from an Occupational Health Adviser. The request to be in a workplace during the current lockdown can be withdrawn at any point by the employee or manager and there is absolutely no pressure for CEV people to be in the workplace at this time.</p> <p>Where possible, it remains the case that wider government policy advises those who can reasonably work from home do so, however, school leaders are best placed to determine the workforce that is required in school. Some roles, such as some administrative roles, may be conducive to home working, and schools should consider what is feasible and appropriate. Pupils - pupils who are classed as CEV should not come into school and should be educated remotely at home.</p> <p>IPRAs and employee risk assessments e.g. WASPs and IPRAs must be reviewed for all CV and higher risk staff and pupils before they return to ensure it is as safe as possible. OH can assist with medical advice for staff. Pregnant staff and pupils - More guidance and advice on coronavirus (COVID-19) and pregnancy is available from the Royal College of Gynaecologists. Pregnant staff and pupils over 28 weeks gestation and those with underlying health conditions which place them at higher risk should work from home if strict social distancing cannot be adhered to or in roles where this is possible and all pregnant staff and pupils should take particular care to practise frequent, thorough hand washing, and cleaning of frequently touched areas in their home or workspace.</p>	Relevant staff have had/are reviewing WASPS where required. All Staff have been offered a personal WASP though not all have taken this up. We have not been made aware of any chn who are CEV.	S Hardacre	01/03/2021
	<b>6.1.2</b>	Some pupils or staff who are no longer required to shield, but are still generally under the care of a specialist health professional may need to discuss their care with their health professional before returning to school in <b>March</b> (usually at their next planned clinical appointment). Any advice must be considered in an IPRA or WASP. OH can assist with medical advice for staff.	To be followed	S Hardacre	01/03/2021

	6.1.3	All staff should follow the measures set out in the system of controls in this risk assessment to minimise the risks of transmission. This includes continuing to observe good hand and respiratory hygiene and maintaining social distancing. CV and staff at higher risk should take particular care to practise frequent, thorough hand washing, and cleaning of frequently touched areas in their home and/or workspace. Ideally, adults should maintain 2 metre distance from others, and where this is not possible avoid close face to face contact and minimise time spent within 1 metre of others. Adults should continue to take care to socially distance from other adults including older children/adolescents. Schools should be as flexible as possible in how members of staff in these categories are deployed e.g., placing them in roles in settings where it is more possible to maintain social distancing or with the use of additional PPE.	Reminders to be sent out to staff and Near-Misses to be logged.	S Hardacre	01/03/2021
	6.1.4	<b>Staff who live with someone who is CEV but who are not CEV themselves, can still attend work where home-working is not possible and they should ensure they maintain good prevention practice in the workplace and home settings, unless they have been advised otherwise by an individual letter from the NHS or a specialist doctor. Staff who live with those who are CV can attend the workplace and they should ensure they maintain good prevention practice in the workplace and at home.</b> People who live with those who may have comparatively increased risk from coronavirus (COVID-19) can attend the workplace. People who live with CEV or CV persons should have their COVID risk assessment reviewed to see if additional control measures such as staggered start and finish times to avoid rush hour, working in lower risk roles / with lower risk year groups, additional PPE, working with smaller group sizes than full classes, changing clothes / showering on return home could be put in place.	To be followed	S Hardacre	01/03/2021
<b>7. Persons who are already displaying Coronavirus symptoms</b>	7.1	All persons who are displaying symptoms must not come into school and should follow Government guidance on self isolating including test and trace.	E-mail to be sent out to parents each week to reiterate this. Reminders on all school correspondence.	S Yechezkel S Bhogal	01/03/2021
	7.2	Persons whose family members are displaying symptoms of Coronavirus must follow Government guidance regarding self isolating including test and trace.	E-mail to be sent out to parents each week to reiterate this. Reminders on all school correspondence.	S Yechezkel S Bhogal	01/03/2021
	8.1	All persons who develop Coronavirus symptoms in between attendance times or whilst on site, should follow government guidance on self-isolating (including isolating for at least 10 days) and including test and trace. Staff or pupils on site when they develop symptoms should be sent home as soon as possible. All staff and pupils who are attending an education or childcare setting will have access to a test if they display symptoms of coronavirus. Settings have been provided with a small number of home testing kits that they can give directly to parents/carers collecting a pupil or to staff members who have developed symptoms at their setting where they think providing one will significantly increase the likelihood of them getting tested. Advice will be provided alongside these kits.	Follow NHS Guidelines.	S Hardacre	01/03/2021
	8.2	Whilst awaiting pick up persons should be isolated in a separate area with a closed door (and preferably an open window). Pupils will need to be supervised whilst this takes place. Consider if you can set aside a separate room to be available for potential isolation of staff and pupils. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.	Follow DfE Guidance. We have allocated an isolation room, Testing Centre for Years 1-6. Use Toilets opposite teh Drama Studio. Staff to escort chn round the outside not through the school. EYFS Main entrance area for EYFS chn and Toilets in Nursery 1 nappy area.	S Hardacre	01/03/2021
	8.3	An IIR face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then gloves, an apron and a IIR face mask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn.	All necessary PPE is available and must be worn if escorting a child.	S Hardacre	01/03/2021

<b>8. Persons developing Coronavirus symptoms who have been on site previously or persons who develop symptoms whilst on site</b>	<b>8.4</b>	Where the <b>initial</b> child, young person or staff member with symptoms tests <b>negative</b> , they can return to their setting and the fellow household members can end their self-isolation. Where a <b>contact</b> traced child, young person, or staff member tests negative following the development of symptoms they will need to continue self-isolating until 10 days after symptoms have started. Fellow household members can end their self-isolation.	Follow NHS Guidelines	S Hardacre	01/03/2021
	<b>8.5</b>	Where a child, young person or staff member tests <b>positive</b> , or <b>there is an overall rise in sickness absence where coronavirus (COVID-19) is suspected</b> , you can contact the DfE helpline for advice around which bubble(s) should be collapsed and staff and pupils sent home and advised to self-isolate for 10 days. The other household members of that wider class or group do not need to self-isolate unless the child, young person or staff member they live with in that group subsequently develops symptoms. Inform DCS Alert using form PCIF 01.	Follow NHS Guidelines	S Hardacre	01/03/2021
	<b>8.6</b>	If settings have 2 or more confirmed cases in connected groups within 14 days they may have an outbreak, and should contact the PHE helpline. <b>Alternatively you can contact the DfE Helpline on 0800 046 8687 and select option 1 for advice on the action to take in response to a positive case.</b> In some cases, health protection teams may recommend that a larger number of other pupils self-isolate at home as a precautionary measure - perhaps the whole site or year group. If settings are implementing controls from this list, addressing the risks they have identified and therefore reducing transmission risks, whole setting closure based on cases within the setting will not generally be necessary, and should not be considered except on the advice of health protection teams. Inform DCS Alert using form PCIF 01.	Follow NHS Guidelines	S Hardacre	01/03/2021
	<b>8.7</b>	If a member of staff has helped someone who was unwell with a new, continuous cough or a high temperature, they do not need to go home unless they develop symptoms themselves or the pupil or staff member subsequently tests positive. They should wash their hands thoroughly for 20 seconds after any contact with someone who is unwell.	Follow NHS Guidelines	S Hardacre	01/03/2021
	<b>8.8</b>	Clean core areas those staff or pupils have been in with standard cleaners / disinfectants.	Cleaners on site throughout the day on a rota.	S Yechezkel	01/03/2021
	<b>8.9</b>	A separate sanitary facility should be provided for individuals who display symptoms. These should be cleaned and disinfected using standard cleaning products before being used by anyone else as should any areas they are isolated in.	Toilets opposite Drama Studio. EYFS to go to the toilet in Nursery changing area. This to be then closed off until cleaned.	S Hardacre	01/03/2021
	<b>8.10</b>	Consider if possible the provision of an additional sterile classroom/space which could be used to move a group to where a member of that group has displayed symptoms. This may enable cleaning and disinfection of the potentially contaminated area.	In case of Office staff- other office spaces are available. Teaching Group to be moved to one of the halls or outdoors whilst area is being cleaned. Lunch staff to vacate kitchen whilst it is cleaned.	S Hardacre	01/03/2021
	<b>8.11</b>	Public Health England is clear that routinely taking the temperature of pupils is not recommended as this is an unreliable method for identifying coronavirus (COVID-19).	We will only take temperatures in case of symptoms	S Hardacre	01/03/2021
		<b>Follow the guidance in 2021 Bulletin 09 - COVID 19 and CF50 if you have reasonable evidence that a member of staff has contracted Covid-19 through their work activities.</b>	To be followed	S Hardacre	01/03/2021
		<b>Follow the guidance in the simple flowchart for cases - these are all available on Leeds For Learning.</b>	To be followed	S Hardacre	01/03/2021
		<b>Useful information on self isolating</b> <a href="https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection">https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection</a>	This will go out to staff and parents.	S Bhogal	01/03/2021

<b>9. Controlling access into the school for staff, pupils and members of the public.</b>	<b>9.1</b>	Travel patterns differ greatly between settings. If those patterns allow, settings should consider staggered starts or adjusting start and finish times to keep groups apart as they arrive and leave. Staggered start and finish times should not reduce the amount of overall teaching time.	Staggered times and drop-off/pick-up time windows are in place to avoid too much coengestion on site.	S Yechezkel	01/03/2021
	<b>9.2</b>	Open as many access points into the school grounds during drop off and pick up as possible to assist with social distancing and enabling ease of access for pupils.	This is in place	S Yechezkel	01/03/2021
	<b>9.3</b>	Where possible have separate access and exit points into the building for different groups of pupils and staff as close as possible to their designated classroom / work areas. Rooms / work areas should be accessed directly from outside where possible.	This is in place	S Yechezkel	01/03/2021
	<b>9.4</b>	Where possible, at drop off and pick up times to avoid the contamination of door handles doors should be kept open or only opened / closed by the member of staff responsible for that area and regularly cleaned / sanitised. Safeguarding and health and safety must be assessed to see if this is appropriate, especially for younger children and pupils with SEN needs and fire procedures will need to be altered to ensure those doors are closed should the fire alarm sound.	Parents will not be accessing the building. The staff from the class will be the only ones opening or closing the doors. The cleaning staff will be regularly cleaning handles. No entry boxes at each entrance/exit. No parents allowed in this. Lineage and no entry boxes to be re-painted.	S Yechezkel	01/03/2021
	<b>9.5</b>	Parents and carers should be advised not to congregate in playgrounds / outside school and to observe social distancing. If possible areas outside drop off / pick up points could be marked with social distance markers to help. Heads have the discretion to ask parents / carers / visitors to wear face coverings when on the school grounds where social distancing of 2m is difficult to achieve or not being adhered to.	This has been explained in our Opening Information and the HT will be out on duty. Year 5 & 6 parents/carers will not be permitted on site in the morning, unless absolutely essential as children can walk to their classrooms unsupervised. Parents will be asked to pick up from the classrooms unless the child (Y5 & 6 only) has written permission to be allowed to leave. Year 5&6 may collect younger siblings where agreed. Parents to collect own children/children of a valid Bubble only unless exceptional circumstances have been agreed with the school. Parents to wear Face Masks on grounds and staff to wear masks at the doors. Congregating to be further reduced by having staggered times and windows for drop-off/pick-up. Year 5 children can leave the gate to meet parents outside. Year 5& 6 children can pick up younger siblings where parents deem responsible and meet parents outside the gate.	S Bhogal S Hardacre	25/08/2020 25/09/2020 14/10/2020 1/3/2021
	<b>9.6</b>	Parents and carers should be advised that where possible only one adult at a time should accompany their child to / from school.	This has been explained in our Opening Information. Families with difficulties will be accomodated where possible.	S Bhogal	01/03/2021
	<b>9.7</b>	Parents and carers should be informed they should only come into the school building via the office reception area and by prior arrangement where possible.	This has been explained in our Opening Information. We are not allowing any Parents/carers into the buildings. Conversations will happen via email or phone. Meetings via Zoom if required.	S Bhogal	25/08/2020 1/3/2021
	<b>9.8</b>	Staff should access and exit through the closest entrance to the area they will be based in.	Email to be sent to staff about this. Before and After-school Protocols for staff members' children to be followed- e-mail has been sent that children must go straight to their Bubbles and can wait in there at the start/ end of the day.	S Bhogal	01/03/2021

	9.9	Inform suppliers, contractors, visitors as far as possible of the times the school is open and the procedures for accessing the site if these have changed.	M Hare to coordinate this with relevant organisations	M Hare/ P Staniland	01/09/2020
	9.10	Building plans can be utilised to plan and mark on any entry or exit routes to provide a visual document for staff, pupils and parents / carers.	This will be provided if required.	S Yechezkel	01/09/2020
	9.11	Ensure that staff working in the reception area / office are protected from face to face contact e.g. via the use of screens. Staff in open reception areas may require face coverings (and face shields) if screens cannot be provided.	Screen is in place for communication with parents, staff and children/students. Sliding Windows must be kept closed. Staff to maintain 2 metres distance from each other in the office. This will accommodate 4 staff members. Only Office staff permitted in the office. No other staff/children/visitors/ students to go in for any reason. No hot desking- desks and equipment to be cleaned between uses if there is staff movement. Staff must not be in direct contact with children/students in either school. 14/10/2020 To be reviewed as there has been some cross-department contact. Cover Supervisors to be brought in in order to avoid this moving forward.	M Hare	01/09/2020 14/10/2020
<b>10. Handwashing and hand sanitisers</b> (N.B Regular and thorough hand cleaning is going to be needed for the foreseeable future.)	10.1	Have hand wash stations or hand sanitisers at entrance points to the building and get staff, visitors and pupils to use them on entry.	We are asking all staff and children to wash their hands on entry.	S Bhogal	01/03/2021
	10.2	Pupils and staff should wash their hands with soap and running water for at least 20 seconds on entering their allocated area and at regular intervals throughout the day, particularly after going to the toilet, touching faces, coughing or sneezing, learning outside and before and after eating. Paper towels should be available for drying hands. Hand sanitiser could be utilised where handwashing is not practicable or possible. Staff working with children and young people who spit uncontrollably may want more opportunities to wash their hands than other staff, or, children and young people who use saliva as a sensory stimulant or who struggle with 'catch it, bin it, kill it' may need more opportunities to wash their hands than children and young people who do not.	This has been communicated with staff and parents as per NHS and DfE Guidance.	S Bhogal	01/03/2021
	10.3	If sinks are not available close to or in classrooms / work areas then hand sanitiser must be provided.	All classrooms have sinks and sanitising stations will be set up	S Bhogal	01/03/2021
	10.4	All persons should wash their hands or use hand sanitiser before leaving the premises or changing work areas.	This will be standard practice	S Hardacre	01/03/2021
	10.5	Tissues should be available in all group areas and should be single use only and binned after use.	Boxes of tissues are in every classroom as well as bins.	S Bhogal	01/03/2021
	10.6	Any waste products used by staff or pupils that start to show symptoms whilst in school should be double bagged and kept (securely) for 72 hours before being disposed of via the usual waste route. NB the virus cannot survive on a surface for more than 72 hours according to current guidance.	As per NHS Guidance	S Hardacre	01/03/2021
	10.7	In addition staff are to wash hands or use hand sanitiser on entry to staff rooms, before and after preparing food and drinks, and before leaving.	This has been communicated with staff and parents as per NHS and DfE Guidance.	S Hardacre	01/03/2021
	10.8	Identify if supervision of hand sanitiser use is necessary given the risks around ingestion. Small children and pupils with complex needs should continue to be helped to clean their hands properly. Skin friendly skin cleaning wipes can be used as an alternative.	Parents to inform school if hand sanitiser is not to be used.	L Seaton	01/03/2021
	10.9	Sanitising products should be non alcohol based in areas where there may be sparks or naked flames e.g. science labs, kitchens and some D&T rooms.	All cleaning materials used in these rooms is non-alcohol based, which reduces the effectiveness of cleaning against viruses .	P Staniland	01/03/2021
	11.1	<b>General Cleaning</b>			

11.Cleaning	11.1.1	Cleaning should be carried out using standard cleaning chemicals/disinfectant and / or anti-viral wipes and sprays. Guidance is available in <a href="https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings">https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings</a>	These have been purchased and will be provided in every classroom for staff to wipe down surfaces and frequently touched shared resources where applicable on a regular basis and before the end of the day. Cleaners on site during the day. Ensure cleaning supplies to be stocked up	P Staniland	01/03/2021
	11.1.2	Have a dedicated provision of cleaning products in each classroom / work area in use containing hand sanitisers, anti – viral wipes / sprays, paper towels, soap, tissues e.g. in a container like a storage box, workbox etc. so it is easy to pick up and move around the space as required. These should be stored out of reach of pupils. Depending on the layout of spaces and in order to aid social distancing more than 1 bin may be needed in each room i.e. 1 by staff locations and 1 where pupils are located.	Actioned as above. Ensure 2 bins in each classroom where required.	P Staniland	01/03/2021
	11.1.3	Frequent cleaning should take place for regularly touched surfaces e.g. door handles, tables, chairs, toilets, wash basins etc. and rooms or shared areas that are used by different groups. Where pupils are able to (based on their ability) it is acceptable for pupils to assist with wiping down dining tables, desks, chairs, equipment etc. at the beginning and / or end of a session (which may be a lesson if they are moving rooms), or at regular points throughout the day (if they are not moving spaces / rooms). Cleaning is especially important if other groups will be using the areas / equipment in the next 3 days. They should be supervised to ensure it is done properly and safely. If pupils or staff have allergies to the products they should not use them or they could use non latex gloves (for contact allergies).	Cleaners on site throughout the day and at the end of the day.	P Staniland	01/03/2021
	11.1.4	Clean surfaces that children and young people are touching, such as toys, books, desks, chairs, doors, sinks, toilets, light switches, bannisters, more regularly than normal.	Desks to be wiped/ sanitise sprayed on a regular basis, whether done by teaching staff or cleaners. Water Fountains to be anti-bacterial wiped by staff before and after use-chn not permitted to use them. Cleaners on site throughout the day to clean regularly touched surfaces.	L Seaton	01/03/2021
	11.1.5	Shared materials and surfaces should be cleaned and disinfected more frequently. <b>Malleable materials for messy play can be used provided they can be handled by a consistent group of children of and that no one else outside this group can come into contact with it. Alternatively single user alternatives can be used.</b> The malleable material for messy play (for example sand/water/mud) must be able to be used and cleaned - including being replaced - <b>regularly</b> in accordance with the manufacturer's instructions, where applicable. Children <b>and staff</b> should wash their hands thoroughly before and after messy play. Frequently touched surfaces, equipment, tools and resources for messy play should be thoroughly cleaned and dried before they are used by a different group.	As per DFE Guidance. Resources provided in classrooms for staff to clean throughout the day and cleaners on site rota for each classroom and communal areas.	L Seaton	01/03/2021
	11.1.6	Staff undertaking wider cleaning should wear disposable gloves and aprons and change these after cleaning each separate area.	All cleaners will have the relevant equipment. Disposable gloves will be provided for each class for staff to use if they wish.	P Staniland	01/03/2021
	11.2	<b>Rooms used for Isolating persons displaying symptoms</b>			
	11.2.1	Rooms used for isolating pupils or staff who display symptoms of Coronavirus could be left for 72 hours if possible and then normal cleaning resumed or a deep clean of that room should be undertaken.	This will be done.	S Hardacre	01/03/2021
	11.3	<b>Clothing</b>			

	11.3.1	There is no need for anything other than normal personal hygiene and washing of clothes following a day in school. <b>Increased ventilation may make school buildings cooler than usual in cold weather so schools should consider allowing pupils to wear additional items of clothing in addition to the school's current uniform. Where this occurs, no extra financial pressure should be placed on parents.</b>	This has been communicated with staff and parents as per NHS and DfE Guidance.	S Bhogal	01/03/2021
	11.4	<b>Hygiene Suites / Intimate Care Facilities</b>			
	11.4.1	Hygiene suites and intimate care facilities should be cleaned between pupils including slings and hoists, control panels. See Section 17 for PPE guidance.	Staff to wear gloves, apron and face mask if providing full intimate care other than nappy changing for which an apron and gloves will be worn. Full PPE used for intimate care to be disposed of as in section 10.6.	P Staniland	01/03/2021
	11.5	<b>Leeds City Council / FM cleaning providers</b>			
	11.5.1	Additional / alterations to cleaning may be available on request – for example LCC FM cleaning may be able to provide:- 1. Changes to contracted cleaning if areas to clean have been reduced then the cleaning team may be able to utilise the extra contracted time to do enhanced cleans of areas, which may include other items not on contract or a more thorough clean of touch points, 2. Cleaning of hard surface toys such as plastics, wood, sports equipment etc. 3. Additional hours throughout the day i.e. midday cleans.	School employ own cleaners.	P Staniland	01/03/2021
		<p>Minimising contacts and mixing between people reduces transmission of coronavirus (COVID-19). This is important in all contexts, and schools must consider how to implement this. Schools must do everything possible to minimise contacts and mixing while delivering a broad and balanced curriculum.</p> <p>The overarching principle to apply is reducing the number of contacts between pupils and staff. This can be achieved through keeping groups separate (in 'bubbles') and through maintaining distance between individuals. These are not alternative options and both measures will help, but the balance between them will change depending on the: pupil's ability to distance, the layout of the building and the feasibility of keeping distinct groups separate while offering a broad curriculum.</p> <p>Consistent groups reduce the risk of transmission by limiting the number of pupils and staff in contact with each other to only those within the group. Maintaining distinct groups or 'bubbles' that do not mix makes it quicker and easier in the event of a positive case to identify those who may need to self-isolate and to keep that number as small as possible.</p> <p>When using larger groups, the other measures from the system of controls become even more important to minimise transmission risks and the numbers of pupils and staff who need to self-isolate.</p> <p>Younger pupils and those with complex needs will not be able to maintain social distancing and it is acceptable for them not to distance within their group.</p> <p>Using small groups can restrict the normal operation of education and present educational and logistical challenges.</p> <p>You will need to consider the cleaning and use of shared spaces, such as playgrounds, dining halls and toilets, and the provision of specialist teaching and therapies. Assess your circumstances and try to implement 'bubbles' of an appropriate size to achieve the greatest reduction in contact and mixing. Make sure this will not affect the quality and breadth of teaching or access for support and specialist staff and therapists. Whatever the size of the group, they</p>	School to follow this. All staff to read this guidance.	S Hardacre	01/03/2021
	12.1	<b>Corridors and Circulation Spaces</b>			

12.1.1	Corridors could be marked out with social distancing indicators as a visual aid for staff and pupils if it is appropriate / useful.	2 metre markings are already in place. Some of these will be changed to 1 metre markings in order to accommodate more children. Staff not to congregate in areas. No walking through LJFS unless essential in which case a mask must be worn. Staff are permitted to walk round the outside to get to the school office if a visit is essential in which case a mask must be worn.	S Yechezkel	01/03/2021
12.1.2	A system for movement around school, into / out of classrooms, use of toilets should be devised to avoid paths crossing where possible e.g. use of one way systems, 2m queues, controlled access / exit. Staggering break times, lunchtimes and lesson change over will help minimise corridor occupancy. Groups should be kept apart and movement around the school site kept to a minimum.	This is in place.	S Yechezkel	01/03/2021
	Staff Working Across Both schools to ensure increased measures are in place.	Staff to maintain 2 metre distance at all times. Wear masks between travel to each school. Wash hands before and after entry and exit between schools. 14/10/20 Staff working in one school only must not travel to the other school.		01/09/2020 14/10/2020 1/3/2021
12.2	<b>Bubble sizes and Classrooms / Learning Areas</b>			
12.2.1	Settings should assess their circumstances and look to implement 'bubbles' of an appropriate size, to achieve the greatest reduction in contact and mixing, without unduly limiting the quality or breadth of teaching, or access for support and specialist staff and therapists. This may be by class group, year group or phase depending on the age of the pupils, the school layout, the nature of the curriculum and the logistics of breaks, lunchtimes and movement throughout the school. In secondary schools, particularly at KS 4 and KS 5, this is likely to need to be the size of a year group to enable schools to deliver the full range of curriculum subjects and students to receive specialist teaching. If this can be achieved with small groups, they are recommended. At primary school, and in KS 3 schools may be able to implement smaller groups the size of a full class.	We have Year group Bubbles in place. No more than 40 children in a Bubble.	S Hardacre	01/03/2021
12.2.2	Whatever the size of the group, they should be kept apart from other groups where possible and children and young people that are able should be encouraged to keep their distance within groups. Settings with the capability to do it should take steps to limit interaction, sharing of rooms and social spaces between groups as much as possible. It is recognised that younger children and those with complex needs will not be able to maintain social distancing and it is acceptable for them not to distance within their group. For children old enough, they should also be supported to maintain distance and not touch staff and their peers where possible.	This is all in place. Children to be reminded about Social Distancing frequently and age appropriately.	S Bhogal	01/03/2021
12.2.3	Classrooms desks (if in use) should be laid out to enable staff and pupils to move around the room safely and be facing forward or side by side wherever possible and pupils allocated designated desks / spaces where possible / practicable. Furniture / equipment surplus to requirements could be removed to assist social distancing, movement round the class, and reduce potential touch points.	In place in Years 1-6	S Yechezkel	01/03/2021
12.2.4	Consider the rotation of resources to limit what needs to be cleaned on a daily basis and to allow access to a range of activities.	Resources will be rotated and cleaned.	L Seaton	01/03/2021
12.2.5	For older year groups consider locating staff members at designated points where possible.	NA	NA	01/03/2021

12. Bubbles / Social Distancing	12.2.6	If other members of staff need to move around different 'bubbles' they should ensure they maintain 2m social distancing wherever possible. Administration of emergency first aid is an exception to this. For classroom support, informative, supervisory or supportive reasons other staff may need to enter work areas. If they do they should maintain social distancing or use other mitigations such as PPE, Perspex screens and observe good hand hygiene.	Classrooms to be used primarily by the children and adults of the Bubbles. Any other adults will be limited from entering unless essential and must sign-in and maintain 2 metre distance. Cleaners will enter when the classrooms are vacant. However they can clean door handles from the doorway and bathrooms via external doors.	S Bhogal	01/03/2021
	12.2.7	Staff and pupils should stay in the same specified groups throughout their attendance time and each subsequent time wherever possible and sit at the same desks on consecutive days (if applicable and possible). You may keep pupils in their class groups for most of the classroom time, but also allow mixing in wider groups for specialist teaching, wraparound care, and transport. Siblings may also be in different groups.	Allocated desks in Years 1 to 6.. If chn move between desks, these will be wiped first as will be the chairs.	S Bhogal	01/03/2021
	12.2.8	As far as possible, ensure that consistent staff are assigned to each 'bubble' and that movement between bubbles is limited. It is recognised that there will be a need in some settings for staff to move between bubbles e.g. for subject specific lessons, targeted work, to cover staff illness etc.. Staff should ensure social distancing is observed as far as possible with pupils.	Taken into consideration when planning staffing. Limited and necessary movement only such as LK lessons and absence cover. See 12.2.6	S Yechezkel	01/03/2021
	12.2.9	Ensure that wherever possible pupils use the same classroom or area of a setting throughout the day, with a thorough cleaning of the rooms at the end of the day.	This is in place during the day. We need to ensure there is enough time at the end of the day for thorough cleaning of the campus.	P Staniland	01/03/2021
	12.2.10	All bubbles of pupils and the staff working with those bubbles should be kept separate in different areas with sinks available wherever possible. It is recognised that some staff e.g. support staff, will need to move around different areas and bubbles in the school. Social distancing between bubbles and staff, including when moving around school, should be maintained as far as possible. All teachers and other staff can operate across different classes and year groups to facilitate the delivery of the timetable and specialist provision. Where staff need to move between groups, they should try and keep their distance from pupils and other staff as much as they can, ideally 2 metres from other adults. Try to minimise the number of interactions or changes wherever possible.	Each Class has its own sink. Limited movement of staff around school and a 2 metre distance will be adhered to between adults and adults and adults and children where age appropriate.	S Bhogal	01/03/2021
	12.2.11	Where possible consider carrying out any necessary closer supervision side on rather than face on. Perspex screens or face shields could be used.	Staff will adhere to this if required when working in closer proximity to children. Staff to wear a face shield or a mask.	S Bhogal	03/11/2020
	12.2.12	Adults must keep a social distance of 2m away from other adults wherever possible including in class, during supervision, at break times and moving around school.	This will be in place in all areas of school. Staff to be informed on the training day and regular memos sent.	S Bhogal	03/11/2020
	12.2.13	PPA time - staff moving between bubbles for PPA time should be limited as far as possible e.g. not working across multiple different bubbles every day unless they can maintain social distancing. Consider grouping staff to a smaller number of PPA bubbles, having PPA when outside areas / activities could be used, use of HLTAs and TAs that are already part of that bubble where appropriate, and the use of PPE if close contact is required.	Limited working across Bubbles and 2 metre distancing will be in place.	S Yechezkel	01/09/2020
	12.4	<b>Outdoor Areas</b>			
	12.4.1	Pupils should remain in their 'bubbles' when outside and socially distance where possible. Zoning outside areas for different bubbles may assist with this. Staff supervising should maintain social distancing as far as possible.	Outdoor areas will be separate to each Bubble as and when they use an area. This means no other Bubble can come into this area.	S Yechezkel	01/03/2021
12.4.2	Parents show ID badges from a distance. Guards recognise our parents. Anyone not recognised will be stopped.	Guards to check from a distance. Parents not to come within 2 metres of Guards.	M Hare	01/03/2021	
12.4.3	Guards to remain at their location and not to share spaces Hot Desk.	Guards based in allocated areas and not share an office or hut if 2 metres distance cannot be maintained.	M Hare	01/03/2021	

12.5.1	Breaks and lunchtimes could be staggered to allow safer movement around the school, safer use of the play areas and dining halls and cleaning between 'bubbles'.	These are in place	S Yechezkel	01/03/2021
12.5.2	If it not possible to achieve social distancing and clean tables and seating between groups of pupils and staff in the dining hall then lunch should be served in the areas the groups are based in and not all together in dining halls. Staggering lunch and accessing the dining area on a rota may help. 'Bubbles' should not mix in the dining hall or outside although more than one bubble can use an area if the bubbles can be kept 2m apart. Also see 24.3 below.	Staggered lunch times are in place with an allocated cleaner between groups.	S Yechezkel	01/03/2021
12.6	<b>Toilets</b>			
12.6.1	As far as possible allocate different groups their own toilet blocks if the site allows for it. Toilets will need to be cleaned regularly and pupils must be encouraged to clean their hands thoroughly after using the toilet. The use of hand sanitiser stations outside / inside toilets may assist with this as pupil volumes increase. Where possible use of toilets should be as close to their learning base or on a rota with social distancing observed if groups have share / mix e.g. staff toilets, shared toilets off corridors / between classrooms.	Cleaners on site throughout the day to clean toilets. Limited number of children in toilet block. Toilets close to their classrooms. See below	S Bhogal	01/03/2021
12.6.2	Limit the number of children or young people who use the toilet facilities at one time.	Only one Bubble in at a time. No more than 6 chn from that Bubble at a time. One gender in at a time only.	S Bhogal	01/03/2021
12.6.3	Wash hands before and after using the toilet (or use hand sanitisers if hand washing is difficult to achieve).	This has been made clear.	S Bhogal	01/03/2021
12.6.4	Where possible staff should use the staff toilets as close to their work areas as possible and follow social distancing guidelines when moving to / from them.	Staff are aware of this.	S Hardacre	01/03/2021
12.6.5	For older pupils and staff toilets it is good practice for pupils and staff using the facilities to wipe down door handles, toilet seats and flush handles after use with an anti-viral wipe following a "If You Use It – Wipe It" principle.	Wipes will be available in staff toilets. Cleaners will be frequently cleaning children's and staff toilets.	P Staniland	01/03/2021
12.6.6	Signage to the backs of toilet doors and above sinks could be provided to remind pupils and staff to wash their hands and follow the "If You Use It – Wipe It" principle (for older pupils, staff and visitor facilities). Provide bins for the disposal of wipes if not already in place. For shared staff toilets you could use laminated engaged / vacant signs or other markers on the outside door that staff change appropriately to limit the number of staff using them at any one time. These would relate to the number of users allowed at any one time.	All toilets are individual blocks. Except the Brodestky Hall- please lock the entry door when in use as only one staff member allowed in at a time.	S Bhogal	01/03/2021
12.7	<b>Assemblies / Collective Worship</b>			
12.7.1	Bubbles should be kept apart so large gatherings such as assemblies or collective worship with more than one 'bubble' or a large bubble e.g. year group, should be avoided. Assemblies could be virtual via video recordings or live streaming into classrooms.	There will not be any large gatherings where more than one Bubble meets. Assemblies will be in Bubbles only or by Zoom. Maximum number of chn will be 40.	S Yechezkel	01/03/2021
12.7.2	If collective worship is required this should be carried out following the guidelines on social distancing, spacing, occupancy and keeping staff and pupils in their discrete groups. It may be possible to carry this out in the areas each group is based.	As above	S Yechezkel	01/03/2021
12.8	<b>Staff areas</b>			
12.8.1	Staff rooms and offices should be re-arranged to have 2m gaps between seating and work stations and / or stagger breaks / lunchtime or use a rota for common resources and areas to limit staff numbers using the area at any one time. Staff should observe social distancing in these areas. It is recommended schools work out the square metred area available for staff seating and divide this by 4 to give a maximum occupancy rate. The actual number may need to be lower to take into account pinch points such as hot and cold food / drinks stations. Provide signage on the door / in the room to remind staff to socially distance, wear face coverings and maximum occupancy.	No more than 6 members of staff in the Primary Staff Room and 4 members of staff in EYFS Staffroom. 4 members of office staff in the office.	S Hardacre	01/09/2020 21/09/2020 1/3/2021

	12.8.2	Consider creating additional staff break areas to limit use and aid with social distancing and consider limiting the number of staff that can be together to work outside the classroom / take breaks together.	N/A		01/03/2021
	12.8.3	For shared touch points e.g. door handles, drawer handles, microwaves, kettle handles, hot water handles, photocopiers, keyboards etc. follow the "If You Use It – Wipe It" principle with anti-viral wipes.	Antiviral wipes will be at all of these stations.	S Bhogal	01/03/2021
	12.8.4	Consider stopping the use of shared resources such as fridges, milk, tea, coffee etc. to minimise touch points and advise staff to bring their own provisions in (in a cool bag if food needs to be kept cold).	This has been communicated with staff.	L Seaton	01/03/2021
	12.9	<b>Communication</b>			
	12.9.1	It is recommended that staff share mobile phone numbers and communicate via these between groups where possible or that school phones or walkie talkies are used to minimise movement between groups. If staff need to communicate outside their groups they should observe social distancing.	A member of the Headship team is always on call via walkie talkie.	S Bhogal	01/03/2021
	12.9.2	In these exceptional circumstances it is recognised that staff that are still working may need to have their personal mobile phones with them whilst at work for emergency access. In such situations, staff should still follow the practice principles outlined in the guidance for safer working and the school's acceptable use policy regarding the use of their own phones.	If this is the case, staff need to inform a member of the Headship Team. Each request will be considered from a safeguarding perspective.	S Bhogal	01/03/2021
13.First Aid	13.1	Ensure adequate first aid provision for the numbers of staff and pupils on site, this is likely to include staff with Full FAW qualifications and paediatric first aiders for early years settings.	Paediatric First Aider on site everyday. Need to check who has a FAW qualifications.	S Hardacre	01/03/2021
	13.2	Paediatric first aiders must be available at all times that children up to the age of 5 are on site or on educational visits.	In place.	S Hardacre	01/03/2021
14.Biometrics, Lifts, electronic signing in / out systems and control panels / buttons. Shared IT.	14.1	If it is not possible to clean surfaces between each user then the use of biometrics should be replaced with an alternative non contact system where possible e.g. entry points, registration, food and drink purchasing.	N/A	S Hardacre	01/09/2020
	14.2	Sanitisers could be used before touching biometrics if they cannot be cleaned between users.	N/A	S Hardacre	01/09/2020
	14.3	The use of Lifts and control panels should be limited to essential users only and should be cleaned between users e.g. using hand sanitisers or ant-viral wipes.	The Lift is currently not working. Any lifts or control panels will be wiped after use.	P Staniland	01/09/2020
	14.4	Multi user Electronic signing in / out systems should not be used at this current time unless they can be cleaned between users either by the use of hand sanitisers or anti-viral wipes.	In place	P Staniland	01/09/2020
	14.5	IT equipment should be cleaned between users if it cannot be kept for the sole use of an individual.	Antiviral wipes will be provided and all IT equipment must be cleaned after each use.	S Hardacre	01/09/2020
	15.1	<b>Ventilation</b>			
	15.1.1	Once the school is in operation, it is important to ensure it is well ventilated and a comfortable teaching environment is maintained. Where possible, to aid ventilation and avoid the contamination of door handles that need to be opened / closed regularly, doors should be kept open or only opened / closed by the member of staff responsible for that area and regularly cleaned / sanitised. External opening doors may also be used (as long as they are not fire doors and where safe to do so) Safeguarding and health and safety must be assessed to see if this is appropriate, especially for younger children and pupils with SEN needs and fire procedures will need to be altered to ensure those doors are closed should the fire alarm sound.	This is in place. Windows will be kept open.	S Hardacre	01/03/2021
	15.1.2	Where possible open windows to classrooms, offices, staff rooms etc. In cooler weather windows should be opened just enough to provide constant background ventilation, and opened more fully during breaks to purge the air in the space.	Staff to ensure all windows are open in their areas and corridors everyday. No working in a non-ventilated area.	S Bhogal	01/03/2021

15. General controls	15.1.3	You can continue using most types of air conditioning system as normal. If you use a centralised ventilation system that removes and circulates air to different rooms it is recommended that you turn off recirculation and use a fresh air supply. Air conditioning systems that mix some of the extracted air with fresh air and return it to the rooms, individual room systems or portable units do not need adjusting. Ventilation to chemical stores should remain operational. Mechanical ventilation systems should be adjusted to increase the ventilation rate wherever possible, and checked to confirm that normal operation meets current guidance (if possible, systems should be adjusted to full fresh air or, if not, then systems should be operated as normal as long as they are within a single room and supplemented by an outdoor air supply. Heating systems that utilise warm air should follow the same principles. Guidance from HSE is available at <a href="https://www.hse.gov.uk/coronavirus/equipment-and-machinery/air-conditioning-and-ventilation.htm">https://www.hse.gov.uk/coronavirus/equipment-and-machinery/air-conditioning-and-ventilation.htm</a> .	N/A	NA	01/09/2020
	15.1.4	To balance the need for increased ventilation while maintaining a comfortable temperature, the following measures should also be used as appropriate: opening high level windows in preference to low level to reduce draughts, increasing the ventilation while spaces are unoccupied (e.g. between classes, during break and lunch, when a room is unused), providing flexibility to allow additional, suitable indoor clothing, rearranging furniture where possible to avoid direct drafts. Increased ventilation may make school buildings cooler than usual over the winter months. Consider allowing additional, suitable indoor items of clothing to be worn during the winter period in addition to the school's current uniform. Where this occurs, schools should ensure that no extra financial pressure is placed on parents.	Parents have been informed of this.	S Bhogal	01/03/2021
	15.1.5	Heating should be used as necessary to ensure comfort levels are maintained particularly in occupied spaces.	In Place	S Hardacre	01/03/2021
	15.2	<b>Learning Outside</b>			
	15.2.1	Learning outside is encouraged wherever possible, following social distancing and hygiene guidelines. Suggestions and Learning Outside the Classroom guides and advice can be found on Evolve.	All children will be outside where possible while ensuring a full curriculum is provided.	S Bhogal	01/03/2021
	15.3	<b>Medical Needs</b>			
	15.3.1	Staff should be made aware of any medical conditions / needs of the pupils they are caring for e.g. allergies, asthma etc. and devices such as epi pins and inhalers should be available wherever the pupil is. Ensure staff are trained in their use.	N Levy will provide information. Headship Team to ensure staff are trained in their use.	M Hare	01/03/2021
	15.3.2	Food allergies / intolerances information should be shared with catering staff for staff and children they may not already be aware of.	L Levy to provide information.	M Hare	01/03/2021
	15.4	<b>Water fountains</b>			

	15.4.1	Water fountains in shared pupil areas should be taken out of use.	No shared Water Fountains. Children to bring a clean freshly filled water bottles in each day from home. If they need refilling during the day: Nursery 1 staff will refill the children's water bottles when needed using gloves and jugs for pouring. Nursery 2 and Reception to fill jugs from Nursery 1 Water Fountain for top-ups or staff to refill, ensuring no contact with Bottle. Wipe fountain before and after use. Year 1 has own fountain and can be shared by Year 2 staff for refills. Years 3, 4 and 6 to have jugs or staff to refill as for Year 5. Year 5 to share Water Fountain but only staff to refill wearing gloves and pour using jugs. Water fountains to be anti-bac wiped during the day. Only staff to touch Water Fountains when filling jugs. Dining hall fountain to be used by staff only to fill the jugs.	S Bhogal	01/03/2021
	15.4.2	Water bottles can be filled up from the taps in classrooms by a member of staff so long as the water is potable (drinking) water. Sanitisation of hands and bottle before and after is required. <b>For older pupils self re-filling can be undertaken under supervision. Schools should take steps to limit the use of single-use plastic water bottles.</b>	Taps in classrooms are not drinking water. See 199	S Bhogal	01/03/2021
<b>16.Educational Visits</b>	16.1	<b>Off site educational visits are not allowed at this time. This advice will be kept under review.</b>	To follow guidance.	S Hardacre	01/03/2021
	16.2	When visits can recommence they should be done in line with protective measures, such as keeping children within their consistent group, and the coronavirus (COVID-19) secure measures in place at the destination. Evolve and relevant risk assessments have been altered to reflect this. For domestic visits schools should complete the Day Visits risk assessment along with any venue specific assessments.	This will be adhered to when trips resume.	S Hardacre	01/03/2021
	16.3	At this current time and with new lockdown restrictions, settings should only make use of outdoor spaces in the local area to fulfil any essential requirements stated in an individual's existing EHCP and if there is limited outdoor space available onsite. In such situations, pupils should be able to safely adhere to social distancing from staff and members of the public.	As Above	S Hardacre	01/03/2021
	16.4	From 8 August, face coverings will be required by law to be worn in a greater number of public indoor settings including: museums, galleries, cinemas, places of worship, and public libraries. Face coverings do not need to be used by children under the age of 11 or those who may find it difficult to manage them correctly. <a href="https://www.gov.uk/guidance/coronavirus-covid-19-safer-travel-guidance-for-passengers#exemptions-face-coverings">https://www.gov.uk/guidance/coronavirus-covid-19-safer-travel-guidance-for-passengers#exemptions-face-coverings</a>	To follow guidance.	S Hardacre	01/03/2021

17.PPE for staff and pupils	17.1	<p><b>Secondary / SILC settings</b> - Schools teaching pupils in Year 7 and above should ensure staff, visitors and pupils wear face coverings in areas outside the classroom where social distancing cannot easily be maintained, such as corridors and communal areas. <b>Face coverings do not need to be worn by pupils when outdoors on the premises although it is recommended in high density outdoor areas where social distancing is difficult. In addition, it is now recommended that face coverings are worn in classrooms or during activities unless social distancing can be maintained. This does not apply in situations where wearing a face covering would impact on the ability to take part in exercise or strenuous activity, for example in PE lessons. Primary / Nursery Settings</b> - in primary schools, it is recommended that face coverings should be worn by staff and adult visitors in situations where social distancing between adults is not possible (for example, when moving around in corridors and communal areas). Children in primary school do not need to wear a face covering. Face coverings are required at all times on public transport (for children over the age of 11). If staff have to work in close contact with pupils e.g. to supervise science experiments, D&amp;T or Art activities, speech and language work, feeding, face shields or Perspex screens may be appropriate. Staff or pupils may make an individual choice to wear an appropriate face covering or face mask they provide for themselves. <b>It is strongly recommended by LCC that staff and visitors in settings teaching Year 6 and under wear face coverings in all communal areas. Face shields offer staff an additional level of protection when working in classrooms with pupils where face masks are not recommended by the government. Alternatively other transparent face coverings, which may assist communication with someone who relies on lip reading, clear sound or facial expression to communicate, can also be worn. There is currently very limited evidence regarding the effectiveness or safety of transparent face coverings, but they may be effective in reducing the spread of coronavirus (COVID-19). Outside of classroom areas staff should wear face masks or other appropriate face coverings instead of, or in addition to, face shields, unless</b></p>	NA	NA	NA
	17.2	FFP2 / 3 masks are not generally necessary in a school setting.	As per DFE Guidance	S Hardacre	01/03/2021
	17.3	Activities such as close intimate care e.g. nappy changing, invasive medical procedures, assisting with feeding necessitate closer contact with pupils. Staff carrying out these activities should wear disposable gloves and aprons and may need IIR masks and eye protection. This would need to be assessed on a case by case basis.	Staff to wear gloves, apron and face mask if providing full intimate care other than nappy changing for which an apron and gloves will be worn. See 10.6 for how to dispose of used PPE after providing intimate care.	S Hardacre	01/03/2021
	17.4	If PPE is identified as necessary for certain activities or staff through a risk assessment then this should be provided by the school.	PPE is available	S Hardacre	01/03/2021
	17.5	Reusable eye protection / face coverings should be thoroughly cleaned between each individual person being assisted.	This is available	S Hardacre	01/03/2021
	17.6	Advise staff who may get bodily fluids, including spit, on their clothes from pupils to bring a change of clothes to work.	Staff to be informed of this via e-mail. All staff to have a change of clothes at school if preferred.	S Bhogal	01/03/2021
		<b>See Bulletin 07 - PPE and Bulletin 17 - PPE Ordering. PPE can still be purchased via the PPE Team and the range of items available has extended.</b>	Noted	P Staniland	01/03/2021
	17.7	Amalgamated into 17.1			
17.8	Safe wearing of face coverings requires cleaning of hands before and after touching – including to remove or put them on – and the safe storage of them in individual, sealable plastic bags between use. Where a face covering becomes damp, it should not be worn and the face covering should be replaced carefully. Pupils must be instructed not to touch the front of their face covering during use or when removing it and they must dispose of temporary face coverings in a 'black bag' waste bin (not recycling bin) or place reusable face coverings in a plastic bag they can take home with them.	To be followed. Chn will not be wearing masks in school.	S Hardacre	01/03/2021	

	17.9	It is recommended that staff and pupils using face coverings have at least two available, in individual sealable plastic bags, to enable them to be changed throughout the day and be replaced if they become damp. Re-usable face coverings should be cleaned / washed regularly.	To be followed by staff.	S Hardacre	01/03/2021
18. Staff Wellbeing	18.1	Consult with and involve staff in the setting up of individual school plans and systems as far as possible and discuss / share this risk assessment. As staff may feel anxious about being in school and the number of pupils on site arrange staff and 1:1 meetings where necessary to discuss concerns.	Staff to be kept informed and All Risk Assessments shared. WASPS have been carried out and 1:1 meetings will be offered where required.	S Bhogal	01/03/2021
	18.2	Consider building in familiarisation time, training time and practice time for staff before the <b>school opens fully</b> . Where staff have been out of school for a considerable time this may take longer.	All staff to be given a no Zoom day so that they can come into school and prepare.	S Bhogal	01/03/2021
	18.3	The Department for Education is providing additional support for both pupil and staff wellbeing in the current situation. <a href="https://www.gov.uk/government/news/extra-mental-health-support-for-pupils-and-teachers">https://www.gov.uk/government/news/extra-mental-health-support-for-pupils-and-teachers</a>	Noted and link to be sent to all staff.	S Bhogal	01/03/2021
	18.4	Consider if employee risk assessments need to be amended or new ones carried out for staff experiencing physical or mental health issues. A WASP is available via Leeds for Learning.	WASPS to be completed/ reviewed for staff who require them and have requested them.	S Hardacre	01/03/2021
	18.5	It is recommended that regular staff meetings (via skype etc. or following social distancing rules) are undertaken with staff on site and that regular telephone, skype etc. communication is held with staff who are not present to maintain contact and assist wellbeing.	Meetings will resume either via Zoom or Social Distancing- staff to be in departments/smaller groups and 2 metres apart from each other in any area used. Where a meeting can be held virtually or over the phone it should. Staff to avoid meeting in person wherever possible. Staff working from home will be contacted.	S Hardacre	01/03/2021
	18.6	Identify Mental Health First Aiders.	Signposts for support are being sent out and available as required.	S Hardacre	01/03/2021
	18.7	Inform staff about support via Education Support Partnerships and HELP Assist (for Community, VC and schools with a HR or H&S SLA).	Staff to be informed of this and any other support available.	M Hare	01/03/2021
			<b>Guidance on Staff Wellbeing is available on Leeds for Learning.</b>		
19. Contractors visiting site	19.1	Minimise visits to wherever possible to essential visits only e.g. to carry out statutory testing, repair work or building works. Where visits can happen outside of school hours, they should.	Essential maintenance and deliveries permitted only where possible. Masks to be worn if essential visit required indoors.	M Hare	01/03/2021
	19.2	Contractors should provide their risk assessments and discuss additional needs with the school prior to visiting.	Relevant contractors to liaise with M Hare. Masks to be worn as above.	M Hare	01/03/2021
	19.3	Contractors should adhere to social distancing guidelines and wear face masks or appropriate face coverings whilst on site.	M Hare to communicate this. Masks to be worn as above	M Hare	01/03/2021
	19.4	Contractors to carry out regular handwashing or hand sanitising, especially on arrival at the school and throughout their time on site.	M Hare to communicate this. Masks to be worn as above	M Hare	01/03/2021
	19.5	If contractors need supervising this should be done following social distancing guidelines.	M Hare to communicate this	M Hare	01/03/2021
	19.6	Contractors to follow Government guidelines on self isolating if they or their family members display any symptoms.	M Hare to communicate this and contractors to confirm no symptoms.	M Hare	01/03/2021
	19.7	If contractors display any symptoms whilst on site they should be asked to leave immediately and any areas / equipment they have been working in / on isolated for 72 hours or thoroughly cleaned prior to admitting other persons / being used.	M Hare to communicate this and action cleaning /isolation of areas and equipment used.	M Hare	01/03/2021
	19.8	If contractors are on site for long periods of time a separate toilet facility could be identified for their sole use and cleaned after their work has ceased and before being used by the school again. If this can't be established then inform contractors of the "If You Use It – Wipe It" principle.	M Hare to communicate this and identify facility to be used if on site for long periods.	M Hare	01/03/2021

	19.9	School should still follow procedures for controlling access / security whilst contractors are on site. Where visits can happen outside of school or college hours, they should. A record should be kept of all visitors for at least 14 days.	M Hare to communicate this and keep a log (full name/organisation/contact number) of any visitors on site.	M Hare	01/03/2021
20.Lettings / Meetings / Visitors	20.1	There will be occasions when visits to the setting are necessary, but settings should limit these to essential visits only to avoid visitors entering their premises, wherever possible and use remote means. Visits that allow a vulnerable child to meet a social worker, key worker or other necessary support should continue on site. Visits for SEND therapies should also continue on site. Lettings should only continue if the activities are in line with those permitted under the lockdown. Professional visitors and lettings should provide you with their own Covid 19 control measures before coming on site. Ensure your own on site guidance on physical distancing, hygiene, face coverings and control measures are explained to visitors on or before arrival. Face masks or appropriate face coverings should be worn by visitors whilst on site.	Office to request organisations COVID Control Measures before visit. Office to ensure school measures are explained on/before arrival. Shared pen not to be used or must be wiped after use and before use. Wipes to be made available. Visitors to wipe the pen after and before use. Visitors to hand sanitise upon entry and wash hands once welcomed in. Visitors to be given tape to stick the ID badge on themselves instead of a lanyard.	M Hare	01/03/2021
	20.2	In instances where settings need to use other essential professionals such as social workers, speech and language therapists or counsellors, or other professionals to support delivery of a child's EHC plan, settings should assess whether the professionals need to attend in person or can do so virtually. Any meetings / lettings should only go ahead if social distancing and hygiene rules can be adhered to. Supply teachers, peripatetic teachers or other temporary staff can move between settings. They should ensure they minimise contact and maintain as much distance as possible from other staff. They can also participate in schools' rapid testing programmes where these have been established and the school has capacity to include them.	This will be in place.	S Hardacre	01/03/2021
	20.3	A separate toilet facility could be identified for the sole use of visitors whilst on site as close as possible to the area of work / their access point into the building and cleaned after their time on site has ceased and before being used by the school again. If this can't be established then inform visitors of the "If You Use It – Wipe It" principle. There is a legal requirement to provide hygiene facilities for drivers visiting the site e.g. Delivery drivers, minibus drivers.	This will be in place if required	M Hare	01/03/2021
	20.4	School should still follow procedures for controlling access / security whilst visitors are on site. Where visits can happen outside of school or college hours, they should. A record should be kept of all visitors for at least 14 days. .	This will be in place if required. Essential Visitors into school to scan the track and trace barcode upon arrival.	M Hare	01/03/2021
	20.5	Sports lettings are currently restricted under the new lockdown requirements and can only take place if for elite sportspeople (and their coaches if necessary, or parents/guardians if they are under 18) - or those on an official elite sports pathway - to compete and train. They must provide their own risk assessment and follow the guidelines laid down by their National Governing Body that have to be submitted and approved by the Government. Players should arrive changed and shower at home. If changing rooms and showers are closed exceptions may be made where safety and safeguarding measures require their use, e.g. supporting disability athletes, a child needs a change of clothing etc.. Guidance and a list of NGB whose rules have been approved can be found at : <a href="https://www.gov.uk/government/publications/coronavirus-covid-19-guidance-on-phased-return-of-sport-and-recreation/return-to-recreational-team-sport-framework">https://www.gov.uk/government/publications/coronavirus-covid-19-guidance-on-phased-return-of-sport-and-recreation/return-to-recreational-team-sport-framework</a> .	No lettings currently in the school building	S Hardacre	01/03/2021
	20.6	Support groups for parents and children, such as for breastfeeding, postnatal, and baby and toddler groups, for the provision of support for parents and their children, that are necessary to deliver in person, can continue with up to 15 participants (children under five are not counted in the number) where formally organised to provide mutual aid, therapy or any other form of support. This includes where parents and carers meet other parents and carers with or without their young children. This would not typically permit parent-and-child groups focused on social or development activities, such as singalong groups or art classes.	NA	NA	NA

	20.7	In Early Years settings Parents may continue to settle new children and settings may take new admissions in line with current guidance. <b>Parents and carers are able to enter a setting to help their children adapt to their new environment. Settings should ensure that parents and carers wear face coverings, if required, in line with arrangements for staff and other visitors to the setting, stay for a limited amount of time (ideally not more than an hour), avoid close contact with other children and are aware of the 'system of controls', how this impacts them, and their responsibilities in supporting it when visiting a setting with their child. Other</b> in-person visits from parents can take place if they are necessary. Settings should work with parents to ensure parents still have visibility of the childcare environment during this time, including through the use of remote visits, pictures and phone calls.	To be followed. Chn will not be wearing masks in school.	L Seaton	01/03/2021
<b>21.Pupil Wellbeing</b>	21.1	<b>Guidance is available on Leeds for Learning for pupil wellbeing</b>			
<b>22.Fire safety</b>	22.1	Consider if the fire evacuation routes need to be altered to take into account the changed use of the site.	The only change is that Year 1 come down the slope so that they do not mix with Year 2.	S Hardacre	01/03/2021
	22.2	Consider if muster points / practices need to be altered so staff and pupils bubbles are not mixed.	Staff to ensure their Bubbles are 2 metres away from other Bubbles.	S Hardacre	01/03/2021
	22.3	Consider if you need to re-allocate fire marshal roles.	To be followed	S Hardacre	01/03/2021
	22.4	Ensure staff know how to use fire extinguishers, where call points are etc.	To be followed	S Hardacre	01/03/2021
	22.5	Practice new procedures as soon as possible after opening and carry out emergency drills as normal (following social distancing as appropriate). Adjustments should be made to fire drills to allow for social distancing where possible.	Fire Drill will happen at some point in the second week back.	S Hardacre	01/03/2021
	22.6	Consider if staff and pupil PEEPs need to be amended.	NA	NA	01/09/2020
	22.7	If changes are made to the current Fire Evacuation Management Plan and staff re-trained this should be added to your Fire Risk Assessment as an interim measure and a sheet attached marked "Interim Amendments to procedures in relation to COVID-19". <b>LCC sample Fire Risk Assessment has a page in the appendices for interim changes to be noted rather than rewriting sections.</b>	Any changes made to be documented according to the requirements. 10/09/2020 No changes required	S Hardacre	01/03/2021
<b>23.Supervision at Lunchtimes</b>	23.1	Consider how to allocate staff at lunchtime to ensure supervisors stay with a consistent group of pupils and have adequate breaks.	Limited mixing of staff across Bubbles as much as possible.	S Yechezkel	01/03/2021
<b>24.Catering</b>	24.1	Inform catering staff of any changes made from this risk assessment e.g. to entry / exit points, fire safety procedures, safeguarding etc..	All staff to receive Risk Assessment.	M Hare	01/03/2021
	24.2	Discuss with catering staff if there needs to be alterations to menu choices and systems to allow for quicker / easier distribution to pupils / flow through collection points. E.g. limiting meal choices (taking into account specific dietary and allergy needs), provision of 'packed lunches' instead of hot meals.	Menu has been adapted to allow children less or even no requirement of support to cut food. Children to be handed a tray with cutlery and cup already on. Water to be poured for children. Catering staff to ensure to wear gloves, aprons and head coverings.	S Yechezkel	01/03/2021
	24.3	Consider whether meals can be served in the hall or need to be delivered to classrooms and discuss this with catering staff. LCC catering can provide hot and cold grab bags which can be served to pupils in their classrooms for schools using their services and this may be possible for other catering teams to do.	Meals to be delivered in Dining Hall, Brodestky Hall and MSH. Tables to be set up by catering staff.	S Yechezkel	01/03/2021
	24.4	Where possible catering staff should remain in the kitchen / serving hall and use an entrance / exit as close to the kitchen as possible. Catering staff should be informed they must inform the school if there are any positive cases amongst staff on site and schools should report this using the PCIF01 form.	Catering staff have been made aware of this. Catering staff to remain in the servery or kitchen. Not to leave these areas unless essential and then only when other staff or children are not in close proximity.	S Yechezkel	01/03/2021
	24.5	Tables / seating set out by catering staff should be cleaned before pupils and staff use them and in between each group of staff and pupils.	Member of the cleaning team to clean in Dining Hall, Brodestky Hall and MSH areas throughout Lunchtime cleaning tables.	P Staniland	01/03/2021

	24.6	Catering staff should observe the rules of social distancing and hygiene whilst on site. LCC Catering staff may be wearing face masks due to constraints of social distancing and food hygiene. LCC catering staff are allowed to use alcohol based hand sanitisers.	Catering staff have been made aware of this. A screen will be provided at the servery or masks will be worn. Masks to be worn by all staff whilst handling food and serving.	M Hare	01/03/2021
25. Staff Training	25.1	School staff should be inducted / become familiar with new working practices before opening the school, this is especially important for staff members who are new or who may not have been in school during the past months. <b>See also 2.1.</b>	All staff to have a Preparation Day before the return.	S Bhogal	01/03/2021
26. Drop off of Essential Items Forgotten by Pupils	26.1	A system should be put in place for the potential drop off of essential items a pupil may have forgotten e.g. medication, packed lunch. For example, a system such as a 'quarantine bin' / area outside of school reception where the items are left before being cleaned / wiped with anti-viral wipes and delivered to the pupils base. Staff doing this should thoroughly wash hands before and after handling the items.	Need to leave with the Guards in a box so that the Guards do not touch. Office staff to then use gloves and wipe the item if possible and deliver to the Bubble door.	S Hardacre	01/03/2021
27. Transport to School by My Bus or School Buses (not public transport buses)	27.1	Where pupils travel to school by My Bus or School Buses schools should work with West Yorkshire Combined Authority to ensure that drop / off and pick up procedures have been considered. WYCA staff will contact schools directly to discuss school-by-school arrangements. This is likely to include any new drop off / pick up points, how pupils requiring supervision are escorted to / from the buses, opening times / timetables, likely numbers / names of pupils expected to use the buses. Schools may contact debra.bagley@westyorks-ca.gov.uk with all enquiries in the first instance. These contact details should not be shared with families.	NA	NA	01/03/2021
	27.2	Consider how to keep access to My Bus / School Bus drop off / pick up areas clear of parent / carer vehicles e.g. cones, signage etc..	NA	NA	01/03/2021
	27.3	Where possible keep pupils travelling by My Bus / School Bus in the same discrete group within their year group once they are in school. It is very unlikely that children could be transported in class group 'bubbles'. If it can be done it will be, but schools should not assume this can be made to happen. Schools will need to work closely with WYCA to maintain a clear understanding of which children should be travelling to & from school on a school bus in order to safeguard children effectively.	NA	NA	01/03/2021
	27.4	For primary school pupils - where there is a need for parents to board a school bus to buckle their children in the expectation is that this will include any parents boarding a bus for this purpose to wear a face mask. Drivers are not permitted to buckle children in. This should be communicated to parents whose children use these buses.	NA	NA	01/03/2021
	27.5	Pupils on dedicated school services do not mix with the general public on those journeys and tend to be consistent. Latest advice from the Dept of Education is that those involved in the provision of home to school or college transport must do all that is reasonably practicable to maximise social distancing where possible and minimise the risk of transmission. What is practicable is likely to vary according to local circumstances. Local authorities are not required to uniformly apply the social distancing guidelines for public transport, on dedicated school or college transport. However, distancing should still be put in place within vehicles wherever possible. This means that where fewer children and young people are attending school or college, sufficient levels of capacity should be maintained to maximise social distancing. For example, through alternate seating or separation between year groups or schools.	NA	NA	01/03/2021

	27.6	The approach to dedicated transport should align as far as possible with the principles underpinning the system of controls set out in this document and with the approach being adopted for your setting. It is important to consider: <ul style="list-style-type: none"> <li>• how pupils are grouped together on transport, where possible this should reflect the bubbles that are adopted within the setting</li> <li>• additional cleaning of vehicles</li> <li>• organised queuing and boarding where possible, distancing within vehicles wherever possible and maximising the ventilation of fresh air particularly through opening windows and vents ,</li> <li>• on secondary school services, all children will be required to wear a face covering unless exempted for medical or other reasons.</li> </ul>	NA	NA	01/03/2021
	27.7	Travel Assistance Cards to show to the driver are available for download at <a href="http://wymetro.com">wymetro.com</a> .	NA	NA	01/03/2021
	27.8	Transport to swimming pools and other centres organised by the Combined Authority will not be provided until after the October half term break so that resources can be used to provide additional school bus services. This arrangement may have to be extended further.	NA	NA	01/03/2021
	27.9	In accordance with advice from PHE, from the autumn term, we recommend that schools advise children and young people aged 11 and over to wear a face covering when travelling on dedicated transport. This does not apply to people who are exempt from wearing a face covering on public transport.	NA	NA	01/03/2021
<b>28. School Sites Shared with other Users e.g. PFI Staff, Children's Centres</b>	28.1	Where applicable, ensure arrangements that impact on other site users e.g. opening times, access / egress routes, changes to fire practices, cleaning regimes, use of shared areas etc. ...are discussed / information provided to users who share the school site.	Full Liaison and communication with LJFS and The Zone. Will also be in place if other site users resume provision.	S Hardacre	01/03/2021
	28.2	Schools who operate a children's centre on other premises (fund holder) should implement the schools Covid 19 risk assessment in that setting.	NA	NA	01/03/2021
<b>29. Marking / Handling School Work</b>	29.1	Staff can take books and other shared resources home if they can be cleaned. If not, or if work is to be marked, staff can wash hands or sanitise before handling / marking work, at regular intervals throughout and after completing handling / marking. Alternatively resources and marking could be left for at least 48 hours (72 hours for plastic) before and after handling / marking. It is recommended that paper work to be marked is placed in a plastic bag that can be wiped down after collection of work and before handing work back to the pupils. Other suggestions for assessed work include the use of online or electronic assessments or individual worksheets for assessed work so the pupils can retain their exercise books for lessons. Face shields / masks could be used for immediate close contact feedback and visualizers may also help. If pupils or staff have been displaying symptoms any work they have handled during that time should be left for at least 48 hours (72 if plastic).	Staff to use professional discretion as long as in line with the control measures. Exercise Books not to be taken home as they cannot be cleaned.	S Bhogal	01/03/2021
<b>30. Agency staff and volunteers</b>	30.1	Mixing of volunteers across bubbles should be kept to a minimum, and they should remain 2 metres from pupils and staff where possible.	Volunteers will not mix across Bubbles.	S Bhogal	01/03/2021
	30.2	Settings can continue to engage supply teachers and other supply staff during this period. To minimise the numbers of temporary staff entering the setting consider using longer assignments with supply teachers. You should also limit the bubbles they teach or limit them to bubbles where they can socially distance as far as possible. This would also apply to other temporary staff working in schools such as peripatetic teachers, sports coaches, and before and after school clubs staff.	This will be followed if required.	S Bhogal	01/03/2021

31. Before and after school clubs	31.1	From 8 March, schools can resume all before and after-school educational activities and wraparound childcare for pupils, where this provision is necessary to support parents to work, attend education and access medical care, or is part of a pupil's wider education and training. Vulnerable children can attend settings regardless of circumstance. Advise parents that where they are accessing this provision for their children, that they must only be using this, where the provision is being offered as part of the school's educational activities (including catch-up provision), the provision is as part of their child's efforts to obtain a regulated qualification or meet the entry requirements of an education institution, or the use of the provision is reasonably necessary to support them to work, seek work, undertake education or training, attend a medical appointment or address a medical need or attend a support group.	No Breakfast Club in the first week but to be started thereafter. Zone to confirm their position. Zone are now back on site with RA in place and checked by the school.	S Hardacre	01/03/2021
	31.2	Settings should try to keep to the bubbles in use during the school day where possible. Where it is not possible, or it is impractical to group children in the same bubbles as they are in during the school day - for example, if only one or two children are attending wraparound provision from the same school day bubble - schools and external providers may need to group children with others from outside their school day bubble or from a different school, where children from multiple schools are attending provision. If schools or external providers need to do this, they should seek to keep children in small, consistent groups with the same children each time, as far as this is possible. Smaller consistent groups could be used in different rooms or groups socially distancing in a larger space e.g. the hall. If necessary, it would be appropriate for one staff member to supervise up to two small groups, provided that any relevant ratio requirements are met. The relevant guidance on face coverings in section 17 should be followed depending on the age of children attending.	This will be followed when required.	S Hardacre	01/03/2021
	31.3	Make parents / carers aware that government guidance is that they limit the number of different wraparound providers they access, as far as possible, and assure themselves that the providers are carefully considering their own protective measures, and only use those providers that can demonstrate this.	E-mail Parents to inform them of this.	S Hardacre	01/03/2021
	31.4	At this current time schools should not open up or hire out their premises for use by external organisations such as sports coaches and wrap around care unless they are for provision to a) vulnerable children and young people, b) other children where the provision is reasonably necessary to enable their parents and carers to work, search for work, undertake education or training, or attend a medical appointment or address a medical need, or attend a support group, c) being used by electively home educating parents as part of their existing arrangements for their child to receive a suitable full-time education, d) being used as part of their efforts to obtain a regulated qualification, meet the entry requirements for an education institution, or to undertake exams and assessments. From the 29th March, and in line with when schools close for the Easter holidays, out-of-school settings and wraparound providers will be able to offer outdoor provision to all children, without restrictions on the purpose for which they may attend. Indoor provision will be able to be offered to the same categories as above with the addition children on free school meals, where they are attending as part of the Department for Education's holiday activities and food programme.	To be followed	S Hardacre	01/03/2021

<b>32. Music and Performing Arts - for detailed guidance follow <a href="https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19/performing-arts">https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19/performing-arts</a></b>	32.1	Schools should take particular care in music, dance and drama lessons to observe social distancing where possible. This may limit group activity in these subjects in terms of numbers in each group. It will also prevent physical correction by teachers and contact between pupils in dance and drama. Singing and playing wind and brass instruments do not currently appear to represent a significantly higher risk than routine speaking and breathing at the same volume. However, there is now evidence that additional risk can build from aerosol transmission with volume and with the combined numbers of individuals within a confined space. This is particularly evident for singing and shouting loudly, but with appropriate safety mitigation and consideration, singing, wind and brass teaching can still take place. Schools must not host performances with an audience. Government has also published advice on safer singing <a href="https://www.gov.uk/government/publications/covid-19-suggested-principles-of-safer-singing/covid-19-suggested-principles-of-safer-singing">https://www.gov.uk/government/publications/covid-19-suggested-principles-of-safer-singing/covid-19-suggested-principles-of-safer-singing</a> .	Prayers will be said quietly. No singing or loud chanting at the moment is allowed. Shouting is not permitted indoors by children or staff.	S Yechezkel	01/03/2021
	32.2	Singing, wind and brass playing should not take place in larger groups such as choirs and ensembles, or assemblies.	This will be followed	S Yechezkel	01/03/2021
	32.3	Playing instruments and singing in the smaller groups permitted should take place outdoors wherever possible. If indoors, use a room with as much space as possible, for example, larger rooms; rooms with high ceilings are expected to enable dilution of aerosol transmission. If playing indoors, limiting the numbers to account for ventilation of the space and the ability to social distance. It is important to ensure good ventilation. Schools should observe strict social distancing between each singer and player, and between singers and players, and any other people such as conductors, other musicians, or accompanists. Current guidance is that if the activity is face-to-face and without mitigating actions, 2 metres is appropriate. Mitigating factors include : Pupils and staff being positioned back-to-back or side-to-side when playing or singing (rather than face-to-face, positioning wind and brass players so that the air from their instrument does not blow into another player, use of microphones where possible or encouraging singing quietly. Additionally, schools should keep any background or accompanying music to levels which do not encourage persons to raise their voices unduly. Keep the activity time involved as short as possible and it is recommended individuals are seated rather than standing to help maintain social distancing.	To be followed	S Yechezkel	01/03/2021
	32.4	Schools that offer specialist, elite provision in music, dance and drama should also consider the DCMS guidance on the performing arts. <a href="https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19/performing-arts">https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19/performing-arts</a>	NA	NA	01/03/2021

	<p><b>32.5</b></p> <p>Avoid sharing instruments and equipment wherever possible. Place name labels on equipment to help identify the designated user, for example, percussionists' own sticks and mallets.</p> <p>If instruments and equipment have to be shared, disinfect regularly (including any packing cases, handles, props, chairs, microphones and music stands). Pick up and drop off collection points should be created where possible, rather than passing equipment such as props, scripts, scores and microphones hand-to-hand. Limit handling of music scores, parts and scripts to the individual using them.</p> <p>Instruments should be cleaned by the pupils playing them, wherever possible. Schools can continue to engage peripatetic teachers during this period, including staff from music education hubs. Peripatetic teachers can move between schools, for instance, but schools should consider how to minimise the number of visitors where possible. In addition, in individual lessons for music, dance and drama, social distancing should be maintained wherever possible, meaning teachers should not provide physical correction. <b>Individual lessons in music, dance and drama can continue in schools and organisations providing out of school childcare. This may mean teachers interacting with pupils from multiple groups, so you will need to take particular care, in line with the measures on peripatetic teachers.</b></p> <p><b>If there is no viable alternative, music lessons in private homes can resume, following the same guidelines, and additionally following the government guidance for working in homes, and the guidance for out-of-school provision.</b></p>	To be followed where required. Ukeles and recorders or any other equipment used will be cleaned before and after use. Recorders will not be shared.	S Yechezkel	01/03/2021
	<p><b>32.6</b></p> <p><b>Consider limiting the number of suppliers when hiring instruments and equipment. You should agree whose responsibility cleaning hired instruments is with the suppliers. Clean hire equipment, tools or other equipment on arrival and before first use. Use. Equipment and instruments should be stored in a clean location if you take delivery of them before they are needed, and they should be cleaned before first use and before returning the instrument.</b></p>	To be followed	S Yechezkel	01/03/2020
<b>33. PE / Sports including dance.</b>	<p><b>33.1</b></p> <p>Schools can hold PE lessons indoors, including those that involve activities related to team sports, for example practising specific techniques, within their own system of controls. For sport provision, outdoor sports should be prioritised where possible, and large indoor spaces used where it is not, maximising natural ventilation flows (through opening windows and doors or using air conditioning systems wherever possible) distancing between pupils and paying scrupulous attention to cleaning and hygiene. This is particularly important in a sports setting because of the way in which people breathe during exercise. External facilities can also be used in line with government guidance for the use of, and travel to and from, those facilities. Pupils should be kept in consistent groups. Sports equipment that has been touched / handled should be cleaned between groups and pupils and staff should clean their hands before and after activities. Alternately you can rota use so it is not used for 72 hours between groups. Hand sanitiser would be useful to use regularly during sporting activities.</p>	All staff and children to follow these procedures. No Bubbles to use equipment that has not been cleaned or been left for 72 hours. Everyone washes hands before and after PE. Hand sanitiser can be used in lessons.	S Bhogal	01/03/2021
	<p><b>33.2</b></p> <p>Schools have the flexibility to decide how physical education, sport and physical activity will be provided whilst following the measures in their system of controls. Sports whose national governing bodies have developed guidance under the principles of the government's guidance on team sport and been approved by the government are permitted. The ability for schools to offer team sports is likely to be limited. Where schools are considering team sports schools must only consider those sports whose national governing bodies have developed guidance under the principles of the government's guidance on team sport and been approved by the government <a href="https://www.gov.uk/guidance/coronavirus-covid-19-grassroots-sports-guidance-for-safe-provision-including-team-sport-contact-combat-sport-and-organised-sport-events">https://www.gov.uk/guidance/coronavirus-covid-19-grassroots-sports-guidance-for-safe-provision-including-team-sport-contact-combat-sport-and-organised-sport-events</a>. Competition between different schools should not take place until wider grassroots sport for under 18s is permitted.</p>	No Contact sports to take place either in lessons or at playtimes. Gaynor to confirm what Contact Sport entails so that staff are clear.	S Bhogal	01/03/2021

	33.3	External facilities can also be used in line with government guidance for the use of, and travel to and from those facilities.	This will be followed if required.	S Hardacre	01/03/2021
	33.4	PE, sport and physical activity provided by schools to their own pupils under their systems of control can continue. This includes sports clubs or activities before or after school, in addition to their regular PE lessons for those pupils eligible to attend school. Schools are able to work with external coaches, clubs and organisations for curricular and extra-curricular activities where they are satisfied that it is safe to do so. Schools should consider carefully how such arrangements can operate within their wider protective measures.	These procedures will be in place if these activities resume.	S Hardacre	01/03/2021
	33.5	To minimise close contact in changing rooms settings may wish to consider allowing pupils to wear PE kits on the days they are doing PE or coming to school / going home in PE kits if lessons are near the beginning or end of the day. Where this is not possible / practicable e.g. cold weather, other activities on the same day that require more of the body to be covered, ensure pupils have cooled down prior to changing to minimise changing whilst still sweating / breathing heavily.	We are having allocated PE lesson days so that children do not need to get undressed and changed in school. On other days, Teachers can teach additional PE type active lessons that do not require a change of clothes.	S Bhogal	01/03/2021
	33.6	Amalgamated into 33.3	We will follow the LA Guidance.	S Hardacre	01/03/2021
	33.7	PE - there is additional advice available in the following two documents found on L4L and Evolve for additional controls that may be needed for PE if these have not already been assessed. AfPE – Interpreting the government guidance in a PESSA context. <a href="https://www.afpe.org.uk/physical-education/updated-covid-19-guidance-interpreting-the-government-guidance-in-a-nesspa-context/">https://www.afpe.org.uk/physical-education/updated-covid-19-guidance-interpreting-the-government-guidance-in-a-nesspa-context/</a> YST - PE COVID Response – delivery principles (contains wellbeing element for both primary & secondary). <b>Swimming</b> - <a href="https://www.swimming.org/swimengland/pool-return-guidance-documents/">https://www.swimming.org/swimengland/pool-return-guidance-documents/</a>	Our Head of PE will check these out.	S Bhogal	01/03/2021
<b>34. Science and D&amp;T</b>	34.1	CLEAPSS have extensive guidance on lesson delivery with Covid 19 controls (which is being updated at present) <a href="https://www.cleapss.org.uk/">https://www.cleapss.org.uk/</a>	Staff to be signposted to this	S Bhogal	01/03/2021
	35.1	<b>General</b> - Resources that are shared between classes or bubbles, such as sports, art and science equipment should be cleaned meticulously between bubbles, or rotated to allow them to be left unused for a period of 48 hours (72 hours for plastics) between use by different bubbles.	This will be adhered to or all classes will have their own resources. No sharing unless these rules are followed.	S Bhogal	01/03/2021
	35.2	<b>General</b> - Minimise, or remove altogether, soft toys, soft decorations e.g. hanging displays in classrooms and other more difficult to keep clean equipment. Other equipment that is kept for the sole use of a discreet group of staff and pupils can be cleaned at the end of the day, but keep to a minimum. Settings will need to make an assessment of the cleanability of equipment used in the delivery of therapies (for example. physiotherapy equipment, sensory equipment), to determine whether this equipment can withstand cleaning and disinfection between each use (and how easy or practical it would be to do so) before it is put back into general use. Where cleaning or disinfection is not possible or practical, resources will have to be restricted to one user, or be left unused for a period of 48 hours (72 hours for plastics) between use by different individuals. The exception to this would be a piece of equipment such as a weighted blanket that is required for a specific sensory need. The risks generated by removing this support could potentially be greater than the risk of infection. Such equipment should remain solely for the use of one bubble and be washed at the end of every day.	Only equipment that can be cleaned will be used. If it cannot be cleaned then it will be used by one user only and then left unused for the 48/72 hours.	L Seaton	01/03/2021
	35.3	<b>Staff Rooms</b> - Consider stopping the use of shared resources such as fridges, milk, tea, coffee etc. to minimise touch points and advise staff to bring their own provisions in (in a cool bag if food needs to be kept cold).	Staff encouraged to bring their own items and not use shared resources.	S Bhogal	01/03/2021

35. Shared Resources	35.4	<b>Play equipment</b> - Indoor and outdoor play equipment should be more frequently cleaned. This would also apply to resources used inside and outside by wraparound care providers. If it cannot easily be cleaned after each bubble use throughout the day or kept for one bubble at all times you could consider allocating specific equipment to a specific bubble on a daily rota basis. Strict hand hygiene is essential if equipment is shared and users must wash their hands before and after using outdoor play equipment and maintain social distancing where possible.	This will be followed.	L Seaton	01/03/2021
	35.5	<b>Classroom resources</b> - For individual and very frequently used equipment, such as pencils and pens, it is recommended that staff and pupils have their own items that are not shared. Classroom based resources, such as books and games, can be used and shared within the bubble; these should be cleaned regularly, along with all frequently touched surfaces. Reduce the use of shared resources e.g. stationary, books etc. . and allocate individual resources to pupils wherever possible. It is still recommended that children and young people limit the amount of equipment they bring into the setting each day, to essentials such as lunch boxes, hats, coats, books, stationery and mobile phones. Bags are allowed. Pupils and teachers can take books and other shared resources home, although unnecessary sharing should be avoided, especially where this does not contribute to pupil education and development. Similar rules on hand cleaning, cleaning of the resources and rotation should apply to these resources.	Children and staff only use their own stationery. Children do not touch each others exercise books at all. Class texts/resources can be shared but must be cleaned after use/at the end of the day or not used again for 48 hours/72 for plastics.	S Bhogal	01/03/2021
	35.6	<b>Early Years</b> - Shared materials and surfaces should be cleaned and disinfected more frequently. <b>Malleable materials for messy play can be used provided they can be handled by a consistent group of children of and that no one else outside this group can come into contact with it. Alternatively single user alternatives can be used.</b> The malleable material for messy play (for example sand/water/mud) must be able to be used and cleaned - including being replaced - <b>regularly</b> in accordance with the manufacturer's instructions, where applicable. Children <b>and staff</b> should wash their hands thoroughly before and after messy play. Frequently touched surfaces, equipment, tools and resources for messy play should be thoroughly cleaned and dried before they are used by a different group.. Consider the rotation of resources to limit what needs to be cleaned on a daily basis and to allow access to a range of activities.	Water will be used and changed throughout the day. Sand and Playdough can be used by a consistent group and changed regularly.	L Seaton	01/03/2021
	35.7	Pupils can take resources e.g. library books, home as long as they are quarantined for 48 hours (72 if plastic) on their return if they cannot be cleaned.	Reading Books can go home on this basis. Use Books already in school for listening to readers which is kept in the childs tray/smart sack.	L Seaton	01/03/2021
36. Record Keeping	36.1	Good record keeping is key to managing any potential positive cases and / or outbreaks.	A record will be kept in the office.	S Hardacre	01/09/2020
	36.2	Records should be kept of pupils and staff in each bubble, and any close contact that takes places between pupils and staff in different groups. Records of visitors, agency staff, volunteers etc.. and who they have been working with should also be kept. In order to keep this proportionate you can utilise existing recording practices e.g. class / lesson registers, signing in / out systems, meeting registers, training records, physical intervention records and first aid records. Schools do not need to ask pupils to record everyone they have spent time with each day or ask staff to keep definitive records in a way that is overly burdensome.	A Signing in sheet on the classroom door for staff/visitor to sign if they have entered the room or spent time with a child outside of the room. All staff to carry their own pen and not share.	S Bhogal	01/03/2021
	36.3	If your existing systems to not record times when pupils, staff and others are working together e.g. small group intervention work, PPA cover, use a simple signing in / out system for the class / area or a simple activity / register record.	As Above.	S Bhogal	01/03/2021
	36.4	It is good practice to record cases where pupils and staff are symptomatic or test positive / negative as this will help identify close contacts if needed and whether there is a potential outbreak. CPOMs could be used for this for pupils and / or a simple spreadsheet for staff and pupils. A sample one is provided on LfL.	Manjit to check out both options and choose the most efficient one for our school.	M Hare	01/03/2021

	36.5	A record should be kept of which staff have assisted pupils or staff who are displaying symptoms. This could be via first aid records or could be added to the simple spreadsheet if used.	This will be added to our chosen record keeping system.	S Hardacre	01/03/2021
37. Use of school minibuses / transport e.g. for visits, transfer between settings, emergencies	37.1	The approach to minibus / coach / private vehicle transport should align as far as possible with the principles underpinning the system of controls set out in this document and with the approach being adopted for your setting. It is important to consider: a) how pupils are grouped together on transport, where possible this should reflect the bubbles that are adopted within the setting, b) additional cleaning of vehicles, c) organised queuing and boarding where possible and distancing within vehicles wherever possible, d) passengers cleaning their hands before boarding and after disembarking (putting sanitiser on whilst on board could cause spillages and slip hazards), d) drivers and escorts regularly hand sanitising throughout the journey and after tasks such as helping a child board or handling a child's belongings, e) boarding the transport 'first in last out' and allocating specific seats where possible, f) maximising the ventilation of fresh air particularly through opening windows and vents, g) avoiding the use of face to face seating on home to school transport wherever possible and h) the use of face coverings for children 11 and over. Children should be encouraged to carry tissues on home to school transport. These will need to be disposed of in a covered bin. Where it is not possible to have a bin on board, schools should have a suitable disposal process on arrival, in line with their process for disposing of face coverings.	To be followed for any visits including school swimming	S Hardacre	01/03/2021
	37.2	If the use of private vehicles or car sharing is unavoidable / necessary the following should be considered : a) sharing the transport with the same people each time, b) minimising the group size at any one time, c) opening windows for ventilation, d) travelling side by side or behind other people, rather than facing them, where seating arrangements allow facing away from each other, e) considering seating arrangements to maximise distance between people in the vehicle, f) cleaning the car between journeys using standard cleaning products especially making sure door handles and other areas that people may touch are cleaned, and g) drivers and passengers wearing face coverings.	To be followed where required.	S Hardacre	01/03/2021
	38.1	GCSEs, A and AS level exams will not go ahead this summer as planned. Schools undertaking mock exams / other exams should follow the advice below.	NA	NA	01/03/2021
	38.2	Collect and keep contact information for candidates and invigilators so that you can use it to identify close contacts if needed. This is particularly important for any external visitors, including any non-school staff assisting with exams, and candidates not on roll at the setting.	NA	NA	01/03/2021
	38.3	Ensure every exam has a seating plan, so the names of the invigilators can be cross referenced to the contact details held for candidates and invigilators.	NA	NA	01/03/2021
	38.4	Make arrangements to ensure candidates that arrive before the scheduled start time of exams are kept separate from other students arriving at the school or college. This is likely to include a location where candidates will wait before the exam that can support social distancing between group 'bubbles' as well as between on-roll and off-roll candidates.	NA	NA	01/03/2021
	38.5	Make sure that any candidates who arrive late for the exam follow social distancing measures.	NA	NA	01/03/2021
	38.6	Make sure that there is a plan to manage candidates leaving the exam room and site, particularly as exams may finish at different times. As part of this take into account any candidates who need extra time in exams.	NA	NA	01/03/2021
	38.7	Frequently touched surfaces in exam rooms (for example, door handles, individual desks) should be cleaned after every exam with the usual cleaning products, including the backs of chairs where candidates may pull chairs out to sit.	NA	NA	01/03/2021

38. AS, A level and GCSE exams	38.9	Desks should not be set up face to face. For GCSE, AS and A level exams, the minimum distance in all directions from centre to centre of candidates' chairs must be 1.25 metres, following JCQ's Instructions for Conducting Examinations. This distance is the minimum that must be maintained for students within a group bubble. For VTQ exams, you should follow the guidance specified by the relevant awarding organisation. <b>It is recommended 2m distance is achieved between candidates wherever possible.</b>	NA	NA	01/03/2021
	38.9	All other candidates, whether in different group bubbles, private candidates or those returning to school or college to take exams, should be seated 2 metres apart from each other. These candidates can be seated in the same room.	NA	NA	01/03/2021
	38.10	There is no overall limit on the number of candidates who can sit in a room, as long as desks are correctly spaced. The upper limit to the number of candidates who can take an exam in a room together depends on the desk spacing requirements.	NA	NA	01/03/2021
	38.11	Good ventilation is important and you should maximise this wherever possible, for example, opening windows and propping open doors where safe to do so (bearing in mind safeguarding in particular).	NA	NA	01/03/2021
	38.12	Invigilators may walk up and down aisles between desks, but there must also be points in the room where an invigilator can stand at least 2 metres from the nearest desks and see all the candidates in the room. Invigilators and other staff should stand alongside candidates when interacting with them, rather than face to face.	NA	NA	01/03/2021
	38.13	<b>As staff and pupils are unlikely to be able to be 2m apart at all times they would need to wear face coverings - for this reason it is recommended exams do not take place whilst the additional requirements for face coverings in classrooms / during activities is in place.</b>	NA	NA	01/03/2021
	38.14	Invigilators can move between different schools and colleges. They should minimise contact and maintain as much distance as possible from other staff.	NA	NA	01/03/2021
	38.15	Invigilators do not need to wear gloves when collecting exam scripts from candidates but should wash their hands thoroughly and more frequently than usual and particularly after handling exam papers.	NA	NA	01/03/2021
	38.16	For encounters of over 15 minutes, for example, when scribes, readers or other individuals are supporting candidates, staff should maintain a 2 metre distance where possible, for example using a separate room from other candidates. If staff cannot maintain a 2 metre distance, they should avoid close face to face contact and minimise time spent within 1 metre of others. These arrangements may not be possible when working with some candidates who have complex needs, in which case these candidates' educational support should be provided as normal during exams. Perspex screen could also be used.	NA	NA	01/03/2021
38.17	If candidates need to leave the exam room and need to be accompanied for more than 15 minutes, staff should maintain a 2 metre distance where possible. If this is not possible, staff should take mitigating measures, such as standing alongside the candidate and using a face covering.	NA	NA	01/03/2021	
39. Asymptomatic Testing	39.1	An asymptomatic lateral flow device testing programme has been put in place in the school.	Staff only	S Hardacre	01/03/2021
	39.2	Staff and pupils (where relevant) are encouraged to take part in the programme and provided with information, guidance and the opportunity to discuss any issues / concerns and raise questions.	Staff only	S Hardacre	01/03/2021
	39.3	<b>Where relevant, pupils are being offered 3 lateral flow tests in the school on site testing site followed by regular twice weekly home testing on their return to school.</b>	NA	NA	
	39.4	Sections 3 or 4 of this risk assessment are being followed by the school and staff / pupils taking part.	Staff only	S Hardacre	01/03/2021

**Section 4 - Home Mass Asymptomatic Testing for Primary and Nursery Settings - daily serial testing for close contacts is not to be undertaken at the present time unless part of the NHS evaluation programme.**

Area of control	Control Measures	Additional / altered measures / notes	Implemented by : Initial	Date Completed		
<b>Primary and School Nursery Settings - currently limited to twice weekly staff home tests. Guidance and Resources are available on the Primary School Portal - a link is available on the Leeds for Learning Health, safety and Wellbeing Home page. Through schools where the Primary /Nursery and Secondary bases are on the same site should follow the Secondary schools testing process if safe access is available to the Secondary testing area. If based on separate sites the Primary /Nursery process should be followed.</b>						
PT1. Organising the testing system.	1.1	Staff should be provided with the school amended letter for staff and privacy notice (on the Primary schools portal), information leaflet, time to watch the how to test video and access to the relevant materials on the primary schools portal to enable them to make an informed decision regarding consent for weekly testing. It is recommended this is done as a group in staff meetings to give a consistent message and it could be done via a virtual staff meeting with time during / after fro staff to ask questions / raise any issues or concerns. As this may involve large groups of staff and be of some length it is recommended this is not done face to face to minimise the risk of transmission / potential contacts.	Followed	S Bhogal	01/03/2021	
	1.2	Staff should be informed that if they consent to testing they must carry out the testing at the time agreed with the school, follow the instructions in the test kit, must not give the test kits to anyone else and must upload their results and inform the school as soon as possible	Followed	M Hare	01/03/2021	
	1.3	Identify and record which staff have given consent to carry out twice weekly testing. Staff should be encouraged to undertake testing as it is an additional control measure on top of those already in place, however, consent is voluntary and can be withdrawn by the individual at any time and they should not be directed to or forced to take the tests. Staff attending school who do not consent to the test can still attend school as normal if they do not have symptoms of Covid -19.	Followed	M Hare	01/03/2021	
	1.4	Set up a system of recording the distribution of test packs and the results of testing carried out.	Followed	M Hare	01/03/2021	
	1.5	One or more COVID-19 co-ordinators school be identified and they may need to be supported by a separate Registration Assistant. The roles each person will carry out should be identified and should include :	Followed	S Hardacre	01/03/2021	
		a) who is communicating with staff and addressing any personal issues / concerns with regards to testing they may have.	Followed	S Bhogal	01/03/2021	
		b) who is distributing the correct number of kits to staff, ensuring staff have the right instructions and are signing for the test kits.	Followed	M Hare	01/03/2021	
		c) who is the point of contact for staff if they have incidents whilst testing at home and who is reporting any incidents and overseeing the process. The incident form in the "How to Guide - Primary Schools EY LFD Testing" document could be used.	Followed	P Staniland	01/03/2021	
		d) who is receiving, recording and collating tests results including reporting any positive results to DCS Alert via the PCIF 01 form.	Followed	M Hare	01/03/2021	
	1.6	e) who is managing the storage, stock control and re-ordering of test kits. It is recommended staff undertaking testing are made aware of who has responsibility for each of these roles so they can report results and raise any issues / questions with the appropriate person.	Followed	P Staniland	01/03/2021	
	1.7	Set up a collection point in school for the distribution of the test packs - this should be a big enough space to allow social distancing for the numbers permitted to enter the space at any one time and be able to be secured to prevent unauthorised access e.g. the staff room. The temperature of the area should be between 2°C and 30°C. For schools with a screened reception desk with a secure office space this may be a suitable option so kits can be handed out via the screen.	Staff are self-testing but all other roles are clear	S Hardacre	01/03/2021	
	1.8	The lot numbers of the testing kits provided should be recorded on arrival.	In Place	M Hare	01/03/2021	
	PT 2. Storage and management of Testing Materials / Supplies for the Testing area.	2.1	Testing kits should be stored between 2°C and 30°C.	Followed	M Hare	01/03/2021
		2.2	Storage areas should be lockable and access restricted to authorised personnel only.	Followed	M Hare	01/03/2021
		2.3	Checks of supplies should be regularly undertaken to ensure there are adequate supplies of all relevant materials for the testing to be undertaken and stocks re-ordered as required.	Followed	M Hare	01/03/2021
		3.1	The tests should only be offered to staff who attend the school setting and not those working from home. Staff are expected to sign for the receipt of their test kits.	Followed	M Hare	01/03/2021
	PT 3. Issuing tests	3.2	If you have regular contracted staff, therapists, volunteers on site e.g. cleaners and caterers, peripatetic teachers etc., you could include them in your testing offer if the amount of kits you have been provided with allows for this. This would need to be done in consultation with the contractors / managers and test results would need to be shared between both parties. Those persons would be expected to follow the same procedures as your own staff.	To be followed	S Hardacre	01/03/2021
		3.3	All staff consenting to testing should test twice a week as the tests work best when there is a high viral load. This will apply to part time and full time staff	To be followed	M Hare	01/03/2021
3.4		It is recommended staff are given time slots for the collection of their test kits to avoid staff congregating in the area. You may wish to allocate a member of staff to deliver the testing kits to staff in where they are based. Staff distributing / collecting test kits must wear face masks / face coverings, maintain a 2m distance and hand sanitise before / after handling kits.	To be followed	M Hare	01/03/2021	
3.5		When issuing test kits the issuer must complete the test kit log - see record keeping below.	To be followed	M Hare	01/03/2021	
3.6		Test kits should be issued with the most up to date Instructions for Use leaflet (at this current time test kits may not have the most up to instructions included). It is recommended staff are also sent a copy of this electronically and it is placed on the schools internal system (if there is one) so staff can still access the instructions if they lose the leaflet.	To be followed	M Hare	01/03/2021	
PT 4. Conducting the Tests		4.1	Tests should be taken twice a week at intervals of 3 or 4 days apart e.g. Sunday and Wednesday or Thursday. Consider identifying set days for staff to undertake their tests. It is recommended one of the days is the first day they are in school each week / the day before. This may mean the same set day for all staff or different set days depending on the working patterns of staff.	Staff to be informed of this.	M Hare	01/03/2021
	4.2	Consider the time consenting staff will take the test. This may be : a) in the morning to minimise the chance of being exposed to Covid after taking the test or (b) late afternoon / evening to enable time for the school to take action re close contacts / manage absences in the event of a positive LFT and for staff to have the time to re-take a test if they get void results.	To be followed. Staff to test from home.	M Hare	01/03/2021	
	4.3	Staff that have had a positive PCR test in the last 90 days are exempt from taking a LFD test in the 90 day period after the PCR test. Full guidance for how this could be applied retrospectively can be found in Bulletin 06 2021. Staff that have had the Covid-19 vaccine can still take part in the LFT programme.	To be followed	M Hare	01/03/2021	
	4.4	The LFD test kits should be stored between 2°C and 30°C. However the devices and reagents must be used between 15°C and 30°C during use so if they are stored somewhere colder than 15°C they should be moved to a room temperature area for around 30 minutes before use.	To be followed	M Hare	01/03/2021	
	4.5	Staff should : a) wait at least 30 minutes after eating or drinking anything before starting the test.	To be followed	M Hare	01/03/2021	
		b) Not start their test if they have had a nosebleed in the last 24 hours - if this is the case they should inform the school and take a test when the 24 hours has elapsed if possible bearing in mind the need to take the 2 tests 3 / 4 days apart. If only one nostril has bled they can swab the other one.	To be followed	M Hare	01/03/2021	
		c) Swab the other nostril if they have a nose piercing or, if both nostrils are pierced, remove the jewellery first.	To be followed	M Hare	01/03/2021	
		d) Swab both nostrils if they cannot take a throat swab e.g. they have had a tracheostomy.	To be followed	M Hare	01/03/2021	
		e) Wash their hands or hand sanitise before taking the test.	To be followed	M Hare	01/03/2021	
		f) Use a clean, flat surface and, if doing more than one test, make sure they sanitise their hands each time.	To be followed	M Hare	01/03/2021	
		g) Time the test and check their results at the 30 minute point as tests results are invalid if left any longer.	To be followed	M Hare	01/03/2021	
	4.6	If a test result is Inconclusive / Void the individual should take another LFT as soon as possible using a new test kit but not reusing anything from the first kit. If both tests are void the member of staff should arrange to have a PCR test.	To be followed	M Hare	01/03/2021	
4.7	The testing solution is not toxic in the quantities provided and any spillages should be cleaned with a paper towel. If the solution included the throat and nose sample, the area should be appropriately disinfected using household disinfectant.	To be followed	M Hare	01/03/2021		
4.8	As soon as possible after a positive or negative result staff should upload their results to the NHS online at <a href="http://www.gov.uk/report-covid19-result">www.gov.uk/report-covid19-result</a> or by contacting 119. They must also inform the school via the identified route / at the identified time.	To be followed	M Hare	01/03/2021		
4.9	Staff should report any issues with testing to the school e.g. unable to take the test, missing / broken / damaged items, unable to log results with NHS, void results. The school can monitor and / or then raise this with DIE helpline or 119 as identified in the How to Guide page 17.	To be followed	M Hare	01/03/2021		
5.1	<b>Positive result</b> - individual and their household should start self isolation straight away and the individual should get a PCR test to confirm the result.	To be followed	M Hare	01/03/2021		
5.2	Only a very small proportion of people who do not have coronavirus will receive a positive result (false positive) from a LFT. For this reason household contact isolation and the tracing and isolation of close contacts of the positive case should take place at the point of a positive LFT and should not wait for the PCR test result.	To be followed	M Hare	01/03/2021		

PT 5. Test results and actions to take	5.3	If the PCR test is negative the individual, household and close contacts can end isolation unless they have symptoms of Covid 19.	To be followed	M Hare	01/03/2021
	5.4	<b>Negative result</b> - individual and household can continue as normal unless they have symptoms of Covid-19.	To be followed	M Hare	01/03/2021
	5.5	<b>Inconclusive / Void result</b> the individual should take another LFT as soon as possible using a new test kit but not reusing anything from the first kit. Relevant action will then be taken when a positive / negative result is obtained. If both tests are void the member of staff should arrange to have a PCR test. They do not need to isolate whilst awaiting the results if they are asymptomatic.	To be followed	M Hare	01/03/2021
PT 6. Record keeping / Reporting.	6.1	Schools must keep records of : a) the consent forms and any withdrawal of consent, b) the test kits distributed (a test kit log) including staff signatures on collection and c) their own records of the results of tests.	To be followed	M Hare	01/03/2021
	6.2	Records must be kept in accordance with GDPR requirements.	To be followed	M Hare	01/03/2021
	6.3	The test kit log and the test results register / log must be separate documents. There are samples of each in the templates section of the Primary School Portal. Schools can amend and tailor these to their own needs provided they still contain the data identified in the samples.	To be followed	M Hare	01/03/2021
	6.4	The test kit log and test results register should be kept for a minimum of 8 years after the last entry.	To be followed	M Hare	01/03/2021
	6.5	All positive results (even where a confirmatory PCR test is negative) should be reported as usual via the PCIF 01 Form to DCS Alert (DCS.alert@leeds.gov.uk).	To be followed	M Hare	01/03/2021
PT 7. Waste Disposal	7.1	Tests can be disposed of in the waste bags provided in the test kit and then put in with the general household waste.	To be followed	M Hare	01/03/2021
