

Parents Connect

What do we do?

We are a parent-led service, providing support and information to parents of disabled children and those with additional needs.

Our main aim is to look after **you, the parent.**

The sessions run for 6 weeks, where you will meet other parents and discuss life as a parent to a child with needs.

- For parents of children 0-18
- No diagnosis needed
- No professional referral needed.

We offer sessions via Zoom in England & Wales, or face-to-face in Leeds.

To apply, complete the referral by scanning the QR code or going to:
